This Syllabus is brought to you for free and open access by the Course Syllabi at ScholarWorks at University of Montana. It has been accepted for inclusion in Syllabi by an authorized administrator of ScholarWorks at University of Montana. For more information, please contact scholarworks@mso.umt.edu.
Course Description:
You will receive hands-on experience related to hospital, community and compounding pharmacy practices. Some of the skills covered include: dispensing prescriptions, computer order entry, labeling, patient profiles, non-sterile compounding, and sterile IV admixture preparation. Communication skills will be emphasized. Labs are not easily repeated, so attendance is mandatory.

Required Course Resources:
Pharmacy Labs for Technicians Third Edition

Relationship to program:
This course brings all the didactic learning together with hands-on practice in several different pharmacy settings. You will take weekly quizzes that cover some of the online learning from your other courses in this program.
**ASHP Learning Objectives**

**Personal/Interpersonal Knowledge and Skills**

(1) Demonstrate ethical conduct in all job-related activities.
(2) Present an image appropriate for the profession of pharmacy in appearance and behavior.

(3) Communicate clearly when speaking and in writing.
(4) Demonstrate a respectful attitude when interacting with diverse patient populations.

(5) Apply self-management skills, including time management, stress management, and adapting to change.
(6) Apply interpersonal skills, including negotiation skills, conflict resolution, and teamwork.

(7) Apply critical thinking skills, creativity, and innovation to solve problems.

**Foundational Professional Knowledge and Skills**

(8) Demonstrate understanding of healthcare occupations and the health care delivery system.

(9) Demonstrate understanding of wellness promotion and disease prevention concepts, such as use of health screenings; health practices and environmental factors that impact health; and adverse effects of alcohol, tobacco, and legal and illegal drugs.

(10) Demonstrate commitment to excellence in the pharmacy profession and to continuing education and training.

(11) Demonstrate knowledge and skills in areas of science relevant to the pharmacy technician’s role, including anatomy/physiology and pharmacology.

(12) Perform mathematical calculations essential to the duties of pharmacy technicians in a variety of contemporary settings.

(13) Demonstrate understanding of the pharmacy technician’s role in the medication-use process.

(14) Demonstrate understanding of major trends, issues, goals, and initiatives taking place in the pharmacy profession.

(15) Demonstrate understanding of nontraditional roles of pharmacy technicians.

(16) Identify and describe emerging therapies.

(17) Demonstrate understanding of the preparation and process for sterile and non-sterile compounding

**Processing and Handling of Medications and Medication Orders**

(18) Assist pharmacists in collecting, organizing, and recording demographic and clinical information for direct patient care and medication-use review.

(19) Receive and screen prescriptions/medication orders for completeness, accuracy, and authenticity.

(20) Assist pharmacists in the identification of patients who desire/require counseling to optimize the use of medications, equipment, and devices.

(21) Prepare non-patient-specific medications for distribution (e.g., batch, stock medications).

(22) Distribute medications in a manner that follows specified procedures.
(23) Practice effective infection control procedures, including preventing transmission of blood-borne and airborne diseases.

(24) Assist pharmacists in preparing, storing, and distributing medication products requiring special handling and documentation (e.g., controlled substances, immunizations, chemotherapy, investigational drugs, drugs with mandated Risk Evaluation and Mitigation Strategies [REMS]).

(25) Assist pharmacists in the monitoring of medication therapy.

(26) Prepare patient-specific medications for distribution.

(27) Maintain pharmacy facilities and equipment, including automated dispensing equipment.

(28) Use material safety data sheets (MSDS) to identify, handle, and safely dispose of hazardous materials.

Sterile and Nonsterile Compounding

(29) Prepare medications requiring compounding of sterile products.

(30) Prepare medications requiring compounding of nonsterile products.

(31) Prepare medications requiring compounding of chemotherapy/hazardous products.

Procurement, Billing, Reimbursement and Inventory Management

(32) Initiate, verify, and assist in the adjudication of billing for pharmacy services and goods, and collect payment for these services.

(33) Apply accepted procedures in purchasing pharmaceuticals, devices, and supplies.

(34) Apply accepted procedures in inventory control of medications, equipment, and devices.

(35) Explain pharmacy reimbursement plans for covering pharmacy services.

Patient- and Medication-Safety

(36) Apply patient- and medication-safety practices in all aspects of the pharmacy technician’s roles.

(37) Verify measurements, preparation, and/or packaging of medications produced by other healthcare professionals (e.g., tech-check-tech).

(38) Explain pharmacists’ roles when they are responding to emergency situations and how pharmacy technicians can assist pharmacists by being certified as Basic Life Support (BLS) Healthcare Providers.

(39) Demonstrate skills required for effective emergency preparedness.

(40) Assist pharmacists in medication reconciliation.

(41) Assist pharmacists in medication therapy management.

Technology and Informatics

(42) Describe the use of current technology in the healthcare environment to ensure the safety and accuracy of medication dispensing.

Regulatory Issues

(43) Compare and contrast the roles of pharmacists and pharmacy technicians in ensuring pharmacy department compliance with professional standards and relevant legal, regulatory, formulary, contractual, and safety requirements.

(44) Maintain confidentiality of patient information.

Quality Assurance

(45) Apply quality assurance practices to pharmaceuticals, durable and nondurable medical equipment, devices, and supplies.

(46) Explain procedures and communication channels to use in the event of a product recall or shortage, a medication error, or identification of another problem.
**Student Assessments:**
Labs are not easily repeated, so attendance is mandatory. You will be expected to complete all required reading and preparation in advance of your lab classes. You must pass with a C or better to proceed to the next semester of the program.

**Course Grading Criteria:**

**Course Policies and Other Information:**

**ACADEMIC INTEGRITY:**
All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or a disciplinary sanction by The University. All students need to be familiar with the Student Conduct Code. The Code is available for review online at [http://www.umt.edu/vpsa/policies/student_conduct.php](http://www.umt.edu/vpsa/policies/student_conduct.php)

**DISABILITY ACCOMMODATION:**
Students with disabilities may request reasonable modifications by contacting me. The University of Montana assures equal access to instruction through collaboration between students with disabilities, instructors, and Disability Services for Students (DSS). “Reasonable” means the University permits no fundamental alterations of academic standards or retroactive modifications. Therefore, Eligible students with disabilities must request appropriate accommodations in this course in a timely way. Please speak with me after class or in my office. Please be prepared to provide a letter from your DSS Coordinator. For more information, visit the Disabilities Services website at [http://www.umt.edu/dss/](http://www.umt.edu/dss/) or call 406-243-2243 (voice/text)

**Note:** Instructor reserves the right to modify syllabi and assignments as needed based on faculty, student, and/or environmental circumstances.

**Technical Requirements**
To participate in some courses at The University of Montana, students are expected to be familiar with computers and the Internet. Students are responsible for their own software and computer equipment maintenance and setup. You will need to have access to a CD drive in a computer for some assignments.
**IT and Moodle Resources for Students**

UMOnline Technical Support: 406.243.4999 or 866.225.1641 (toll-free) or umonline-help@umontana.edu
