Political Science 463
Development Administration
Fall semester 2015

Peter Koehn
LA 348 x 5294
Ofc hrs: W 1:30-4:00 & by appointment

Course Description & Learning Outcomes

The course explores key issues of sustainable development and development management as well as the roles and lives of local, national, and transnational public administrators, NGO personnel, consultants, and donor professionals. *Development Administration* focuses on the fundamental challenge of how to enhance living conditions and human capabilities in contexts characterized by scarce material resources. Students should develop awareness of the role of public administrators and NGO staff in sustainable-development processes, how culture affects development management, issues of decentralization, participation, community empowerment, and capacity building, and effective approaches to management training and project evaluation as well as awareness of contemporary issues involving foreign assistance, agriculture, natural resources and the environment, health, education, housing/transportation, and the special training needs of displaced persons. In addition to building a conceptual and knowledge base regarding the challenges of social, economic, and political change at national and community levels, PSCI 463 also involves simulated experience and practical exercises aimed at preparing students with valuable skills for field assignments in nonWestern contexts – including needs and capabilities assessment, data collection, gender-framework analysis, project selection, development planning and budgeting, program implementation, action training, project evaluation, and transnational competence.

Required: All required readings are posted on moodle

Optional: Peter Koehn and Olatunde Ojo (editors), *Making Aid Work: Innovative Approaches for Africa at the Turn of the Century*, University Press of America, 1999.

Course Requirements

Class participation (includes discussion facilitations, group sector report) **25%**
Group development-planning project **20%**
Group final project **25%**
Individual final project **30%**
