COURSE DESCRIPTION

State Government is one of the most exciting areas in political science. This course examines the evolution and development that has taken place in the states since the founding period. It focuses on the basic institutions as well as a broad spectrum of public policy issues that affect governing in the states. The theme of this course is built on one primary question: *Has there been a resurgence of the states?* That is, *have states increased their capacity to govern, manage change, and innovate in various areas of public policy?*

The primary objective of the course is to acquaint students with the complexities of state government and state politics. Local government is not covered in the summer version of the class. Upon successful completion of the course students should acquire considerable knowledge about comparative state government and politics in the states. Assessment is based on students' performance on two exams. Additional learning objectives are provided at **PSCI 344 Learning Objectives** on the online syllabus (see the bottom of the syllabus for the URL).

The **University of Montana** now uses a version of the **Plus/Minus** grading system and a **Credit/No Credit** system (the CR/NCR replaces the Pass/Fail system used in the past). *General education courses must be taken using the traditional letter grade to count toward one's general education requirements.*

To accommodate the Plus/Minus system the grading scale shown below will be used. In **PSCI 344** grades will be assigned based on the following grading scale. This scale and system is more complex than the system used in the past but rewards As only to those students whose performance in the class is "exceptional."

Grade	Point Scale	Point Range	GPA
A	93-100	8 points	4.00
A-	90-92	3 points	3.67
B+	87-89	3 points	3.33
B	83-86	4 points	3.00
B-	80-82	3 points	2.67
C+	77-79	3 points	2.33
C	73-76	4 points	2.00

New Orleans, the Gulf Coast, and Hurricane Katrina dominated the news in 2005 and continues to be important issues about federalism. Many claimed that it was a perfect example (and case study) about the weaknesses of federalism and intergovernmental relations. Below is an interesting article about New Orleans before and after Hurricane Katrina.

This article, from *City Journal*, is an interesting account of New Orleans. It is called "Who is killing New Orleans," by Nicole Gelinas. [Click here](#) for a copy of the article in Adobe Acrobat, or click this link to go directly to the article at *City Journal*.

An article found in *Governing Magazine* about federalism is located at <http://www.governing.com/topics/economic-dev/The-Katrina-Breakdown.html> The article is about the communication breakdown among various levels of government and between agencies. "THE KATRINA BREAKDOWN," by Jonathan Walters & Donald Kettl. (Please note that *Governing* is updating their website and this link may not work).

Another very interesting website is located in Montana. It is called [Project Vote Smart](#). It contains detailed information about candidates in all 50 states at the national and state level.

Houghton Mifflin (now owned by Cengage) provides excellent online resources for the Bowman and Kearney text, including exams, outlines, and many links to state-local web sites. [Click here to access these resources](#). (This website is for *The Essentials* edition). For the 8/e, Cengage has made it a little harder to access. You will need to click on the long link (URL) at the bottom of the syllabus. To use some of the features you will have to register and use the code that came with your book. Also, [Stateline.org](#) is a great website dedicated entirely to news and information about the states and their local governments. Another website is [Piperinfo.com](#), which contains information about state and local governments.

Since state nicknames are often mentioned in class as trivia, [click here](#) to read more about the origin of the Tar Heel State (North Carolina). State mottos are also interesting. For example, the state motto for North Carolina, "*Esse Quam Videri*" is Latin for "to be rather than to seem." [Click here](#) for a humorous version of the 50 state mottos. [Click here](#) for a list of official state slogans and official nicknames.
