PRINCIPLES OF COGNITIVE AND BEHAVIORAL MODIFICATION

CLASS TIME & PLACE: TR (CP 109), 9:40 – 11:00
OFFICE: SB 310, Office Phone: 243-5664; Home Phone: 543-7941
OFFICE HOURS: After class; Mon, Tues, Thurs 3-4; and by appointment

COURSE OBJECTIVES:
A. Knowledge Bases
The purpose of this course is to provide an introduction to the field of cognitive and behavior modification. Students will be expected to be familiar with the different models of cognitive and behavior change. They will learn about a wide range of modification principles and techniques. They will also learn about the principles and procedures of behavior assessment. Students will become acquainted with behavioral research methods and design. They will become knowledgeable about applications of cognitive and behavioral modification to adult and child problems.
B. Skills
Students will be expected to be able to analyze, apply, and discuss the knowledge bases of cognitive and behavior modification to a variety of clinical and contemporary problems through small group discussions and a written paper. This is a 300-level course, with the expectation that students are juniors or seniors and have taken Psych 260.

REQUIRED READINGS:
Additional required readings will be assigned and placed on reserve at the Mansfield Library.

SUGGESTED READINGS AND JOURNALS:
The textbook has an excellent list of additional research and application references at the back of the book. Also, additional references will be suggested as we cover different topics. Journals: Behavior Therapy, Cognitive and Behavior Practice, Cognitive Therapy and Research, Behaviour Therapy and Research, Journal of Applied Behavior Analysis
EVALUATION AND GRADING:

1. Class preparation and participation.

2. Students are responsible for all class lectures, presentations, films, discussions, group problem solving exercises and required readings.

3. There will be three exams (50 points each) and a comprehensive final exam (50 points) scheduled for finals week.

4. In general, there will be no make-up exam. If you do not take an exam, you will receive zero points for the exam.

5. The final exam is scheduled for Wednesday, December 19, 10:10 – 12:10. No early exam will be given. If you cannot be here for the final exam, then you should not take the course this semester.

6. There are a total of 4 exams. The 3 highest test scores will be counted. Thus, a student can throw out his/her lowest hourly exam or not take one of the hourly exams.

7. In addition, students who take the three hourly exams and are satisfied with their grade may elect to not take the final exam.

8. Paper (100 points) due Thursday, November 20; 10 points off for each day/week late.

9. Total points will determine a student’s final grade (total points = 250). A=90%, B=80%, C=70%, D=60%, F<59%

10. Bring to the exams a clear, flat, unfolded NCS test sheet and a #2 pencil.

STUDENTS WITH DISABILITIES: If you are requesting an accommodation, please be sure to see me during the first week of class.

**FINAL EXAM – Wednesday, December 19, 10:10 – 12:10**
PAPER:
Application of Cognitive and Behavioral Modification Principles to Your Major, Career or Personal Interest

1. Select any topic you are interested in. Possible topics:

- Smoking Cessation
- Studying
- Stress Management
- Alcohol or Drug Abuse
- Child Abuse Prevention
- AIDS Prevention
- Parent Training
- Anxiety Disorders
- Safe Sex
- Domestic Violence Prevention
- School Violence Reduction
- Couples
- Depression
- Physical Therapy
- Personal Athletic Training
- Weight Loss
- Eating Disorders
- Toilet Training
- Litter Reduction
- Classroom Management
- ADHD Treatment
- Energy Conservation
- Any other problem behaviors

2. Use the following Case Study format:
   a. Title Page: Title, name, course number, Fall 2001
   b. Problem: Identify a specific problem behavior that you want to change.
   c. Assessment: Conduct a specific cognitive and/or behavioral assessment of the problem. What did you find? (Make up data or use actual data.) Attach data sheets, diaries, etc., in Appendix at back of paper.
   d. Cause: What caused the problem behavior? What is maintaining the behavior? (Answer each question.) (Cite references to support your explanation.)
   e. Goals: Propose specific cognitive and/or behavioral goals.
   f. Treatment: Develop specific cognitive and/or behavioral treatment plans. (Cite references to support your plan.)
   g. Outcome and Prognosis: Report results. (Make up or use actual data.)
   h. References: 7-14 references.

3. Length: Write a 7-9 page, typed (double-spaced) paper (with title page), plus reference page and appendices.

4. Optional: Use an ABAB or Multiple Baseline design to evaluate your treatment.

5. Apply all appropriate cognitive and behavioral modification principles from lecture or text.

6. Due:
   a. Outline and References: Thursday, October 18. (10 points)
   b. Final Paper: Tuesday, November 20 in class. 10 points off for each day/week late. You will present your paper orally (6-8 minutes) in your small groups. (90 points)
