## **COURSE DESCRIPTION**

State Government is one of the most exciting areas in political science. This course examines the evolution and development that has taken place in the states since the founding period. It focuses on the basic institutions as well as a broad spectrum of public policy issues that affect governing in the states. The theme of this course is built on one primary question: *Has there been a resurgence of the states? That is, have states increased their capacity to govern, manage change, and innovate in various areas of public policy?*

The primary objective of the course is to acquaint students with the complexities of state government and state politics. Local government is not covered in the summer version of the class. Upon successful completion of the course students should acquire considerable knowledge about comparative state government and politics in the states. Assessment is based on students' performance on two exams. Additional learning objectives are provided at [PSc 364 Learning Objectives](#) on the online syllabus.

The **University of Montana** now uses a version of the **Plus/Minus** grading system and a **Credit/No Credit** system (the CR/NCR replaces the Pass/Fail system used in the past). *General education courses must be taken using the traditional letter grade to count toward one's general education requirements.*

To accommodate the Plus/Minus system the grading scale shown below will be used. In **PSc 364** grades will be assigned based on the following grading scale. This scale and system is more complex than the system used in the past but rewards As only to those students whose performance in the class is "exceptional."

<b>Grade</b>	<b>Point Scale</b>	<b>Point Range</b>	<b>GPA</b>
A	93-100	8 points	4.00
