Course Description

The course surveys the Canadian political system and assesses issues dominating its politics. Emphasis will be placed upon federal institutions and policy-making, along with the economic, social, and cultural underpinnings of Canadian politics. Policy issues, including Quebec nationalism, western alienation, and Canadian-American relations, will be analyzed within their historical and cultural context to develop an understanding of contemporary Canadian politics.

The Classroom Learning Environment (authored by Dr. Ronald Perrin, Professor of Political Theory)

Wherever the learning process takes place (for example, in the library or the seclusion of one's study) it does so best when there are a minimum of distractions. This requirement poses special challenges for the learning that takes place in the lecture hall or the classroom, where the possibility of distractions in the greatest.

In order to establish and maintain a supportive learning environment for my students I will not tolerate the few individuals who might be prone to a) come to class late or leave early, b) carry on private conversations during class, or c) use the lecture hall/classroom as an opportunity to read material, such as the Kaimin, that is not relevant to the subject matter under consideration.

The only exception to these conditions concern students whose work schedules or unanticipated appointments require them to arrive for class late or leave early. In these instances I would appreciate knowing of the circumstance before it occurs and, in all such instances, request that students do so as unobtrusively as possible. Thank you.
