Exams: All exams must be taken at the assigned time for your section, unless you have my written approval <u>prior</u> to the exam. Material covered on the exams will come from class lectures, class handouts, and the textbook. Exam questions may also be taken from CPA review materials (Accounting and Reporting section of the CPA exam), so students may find it helpful to purchase a CPA exam study guide. Dictionaries are not permitted during exams.

CAFR assignment: You must obtain the most recent (2000 or 2001) CAFR (comprehensive annual financial report) of either a state or a large city (population > 200,000) in the US. Questions from the text will be assigned for students to answer. No two students may select the same CAFR. Sign-ups will be on a first-come basis beginning on Wednesday, September 12. The CAFR assignment is due Monday, December 3. More details will be provided in class regarding this assignment.

Current events assignment: You must find and evaluate newspaper, magazine, or website articles on topics discussed in class. The assignment is due on Friday, December 14. More details will be provided in class regarding this assignment.

Student responsibilities: It is your responsibility to prepare for class by reading the assigned text material and attempting to answer the homework questions before they are discussed in class. You are expected to be a contributing member of the class. It is also your responsibility to monitor your progress in the class and to attend office hours if you do not understand the material. Under no circumstances will extra credit assignments be offered, so be sure to note the assignment deadlines and the exam dates.

This is the tentative schedule for class lectures, assignments, homework, and exams. Changes may be made to the schedule with in-class notice.
