Appendices are not included in assignments unless so indicated.
HOMEWORK:
Homework points are based on homework turned in and credit received as a percent of total points received on all homework collected. For example, if you get credit for 80% of the homework, you will get 80 points (100 X 80%). No late homework will be accepted except for unusual circumstances that I determine are appropriate on an individual basis. HOMEWORK MUST BE TYPED AND SPELLCHECKED. It can be single-spaced or double-spaced.

POINTS: Your grade will consist mainly of the following points:

<table>
<thead>
<tr>
<th>Component</th>
<th>Points</th>
</tr>

<tbody>
<tr>
<td>EXAM I</td>
<td>120</td>
</tr>
<tr>
<td>EXAM II</td>

There is no such thing as a late description and bibliography or a late term paper. Whatever your group has done by the required deadline on each is what I will grade. Substantial points are lost if either is turned in incomplete, however. Your group is responsible for these assignments as a group and no excuses regarding "whose fault it is" if the assignment is late will be accepted. A term paper will not be accepted if the description and bibliography was not turned in by the required deadline.

ASSIGNMENT MATERIAL:

The following materials may be found in Seed's office:
- APB #22 and FAS #7, 34, 121, 130, 131
- Intermediate Text pages on stock options
- Intermediate Text pages on derivatives
- Article on environmental liabilities from The CPA Journal.
- Two short articles on international issues. One is from Strategic Finance and the other from the Wall Street Journal.
- Six short articles on pooling - two from Accounting Today and four from The Wall Street Journal.

Group papers will be used as homework assignments for the last several class days.

Homework Assignment Material and Homework Questions
In advance, you will make available a copy of your term paper for each member of the class and for Beed. As a group, you will compose and hand out five homework questions covering your paper. The correct answers and notation of where they could be found in your paper will be compiled on a separate sheet and given to Beed to be used to grade the homework handed in by the class. (Read Beed's questions on your topic first and do not repeat them.) These questions will be graded for quality and material coverage. All group members will receive the same grade for these questions. Homework answers will not be shared with class members in other groups. A GROUP DOES NOT DO THEIR OWN HOMEWORK FOR THEIR OWN TOPIC. EVERYONE MUST DO BEED'S HOMEWORK ON ALL TOPICS, HOWEVER.
