# Managerial Accounting – BADM 202

Autumn 2001

Prerequisite: BADM 201

## TENTATIVE COURSE OUTLINE

INSTRUCTOR: Karen Neel, CPA

OFFICE: GBB 340

Voice Mail: 243-6551

email: [karen.neel@business.umt.edu](mailto:karen.neel@business.umt.edu)

OFFICE HOURS: Monday 9 – 10 a.m. Wednesday 11-12 a.m. Or by appointment

TEXT: *Managerial Accounting 9<sup>th</sup> Ed.*, by Louderback, Holman & Dominiak (2000). A *Study Guide* is available but is not required.

### GENERAL:

Regular attendance is expected. Reading and written assignments should be completed before coming to class. Advance notification should be given in a student is going to miss an exam or major assignment. Any makeup or other alternative will be at my discretion. Students are responsible for all materials covered and all announcements made in class. Students who miss class should check with a classmate or me to determine what was missed during the session(s).

The quantitative nature of this course requires good algebra skills. It is highly recommended that students have completed Math 117 prior to enrolling in this course. The course material is cumulative; you should not fall behind in the homework or in understanding the class materials. A rough guide is 2 hours of outside study time for each hour in class or about 6 hours per week outside the classroom. Some students require more time, others less. I do not give “extra credit” assignments. It is your responsibility, as a student, to monitor your progress in the course compared to your academic goals.

Students are expected to conduct themselves in a professional manner. Professionalism includes arriving promptly to class, remaining for the duration of the class period, exerting an effort to excel, contributing to group activities, being alert during class, producing neat work products, and treating others with respect. Any student found cheating will receive a failing grade, be reported to the Business School Administration, and have charges filed in the University student court.

INCOMPLETES: Incompletes will not be given for a failing grade.

GRADING: Final grades are based on student’s standing relative to the class.

EXAMS: 1 exam @ 50 pts AND 3 @ 100 points (see tentative schedule for planned dates)	350 points
HOMEWORK: 5 Random, Unannounced collection (2 points each)	10 points
ASSIGNMENTS: Careers Handout (5 points) & Internet Assignment (10 pts)	15 points
	-----
TOTAL POSSIBLE POINTS:	375 POINTS

No absolute grading scale is used. Each exam will be reviewed in class. Cutoff scores will be announced at that time. Class participation, attendance, and quiz (unannounced) scores will be considered in borderline grade decisions.

### COURSE OBJECTIVES:

1. To present the most important conceptual and practical aspects of managerial accounting
2. To show students, through discussion, illustration, and assignment material, applications for managerial accounting principles to decision making in economic entities of all types.
3. To acquaint students with new approaches such as activity-based management and the balanced scorecard to enhance their appreciation of managerial accounting in strategy development and value chain analysis.
4. To illustrate interrelationships between managerial accounting and other disciplines.

Note: I suggest that you review the terms and complete the self-study “Review Problem” (with solution) at the end of each chapter. Solutions to all textbook problems are available in my office. Additional self-study material is available in the study guide and in CMA and CPA Review Manuals (in the Library).

*The faculty and staff of the School of Business Administration at the University of Montana-Missoula are committed to excellence in innovative experiential learning and professional growth through research and service.*

**BADM 202 TENTATIVE SCHEDULE****Autumn 2001**

<b>DAY</b>	<b>DATE</b>	<b>CHAPTER/TOPIC</b>	<b>ASSIGNMENT DUE</b>
W	SEP 5 <sup>TH</sup>	Overview of Course, Chp 1	--
