**Course Description:** This course is intended to provide students with hands on experience with developing technology support skills materials in the operations of local and wide area networks, computer labs electronic classrooms and videoconferencing rooms. Students will be teamed with faculty and staff to work on projects incorporating information technology into learning and teaching. We will cover networking essentials including installing software over the network, and disk imaging techniques, web page development...etc. This semester, there will be a portion of the class dedicated to Active Directory as well.

**Grading:**

4 tests = 20% each 80% of final grade

Group Project = 20% of final grade

Test Dates & Projects will be announced

**Plagiarism Warning: (P. 20 of the 1998-99 University of Montana Catalog)**

“Plagiarism is the representing of another’s work as one’s own. It is a particularly intolerable offense in the academic community and is strictly forbidden. Students who plagiarize may fail the course and be remanded to Academic Court for possible suspension or expulsion.”
