CUTLINE FOR PHOTOS W/JOB PROSPECTS FOR UM COMPUTER SCIENCE GRADS

#1 Dave Hirning, a member of a UM class in machine/assembly language programming, learns to operate the PDP-11/40, a minicomputer system. He is putting a program he wrote into the system by typing it on a computer terminal that will transfer it to a disc for storage. He can retrieve it at any time. Besides the minicomputer, UM students have access to microcomputers and a DECsystem-20, a mainframe computer. Dave, the son of Irvin and Jeannine Hirning of Missoula, is a sophomore computer science major. (UM photo by Leslie Vining)

###

#2 UM computer science majors huddling on how to solve a problem are, from left, Jeff Jennings, Frank Bunton and Andre Hut. Hut and Jennings are juniors from Missoula. Their parents are, respectively, Rudyard and Doris Jennings and Lucien and Fifi Hut. Bunton, a senior, started in music, switched to psychology and ended in computer science. He will graduate in June with majors in both psychology and computer science. He is the son of Alice I. Bunton, Havre. (UM photo by Leslie Vining)
