Fall 9-1-2005

PSC 520.01: Comparative Government

Louis Hayes
University of Montana - Missoula, louis.hayes@umontana.edu
This course has two elements. The first is a general introduction to the field of comparative politics from the perspective of theories and approaches. That is, how do scholars of the field study their subject? This will entail a review of selected articles and books. There will be two articles each week which should be read and summarized in a paper not to exceed nor be less than 750 words. These summaries are due on the dates indicated on the enclosed schedule. Book review assignments should be approximately five pages in length.

The second part of the course is a research paper focusing on some aspect of comparative public policy. This can be any subject from health care to law enforcement in any country other than the United States. This does not include foreign policy. The first step is to prepare a one-page prospectus indicating the nature of the topic and country. This should also include a title and an indication of the source material upon which the paper will be based. The prospectus is due September 22 but may be submitted earlier. The paper should be at least 5000 words in length exclusive of notes and bibliography. The paper is due no later than December 8 but may be submitted earlier.

Graduate studies presume seriousness of purpose and active participation in seminar discussion. Attendance is mandatory. Grades will be determined as follows:

<table>
