PSC 461
Administrative Law
Fall 2003

Administrative law is the part of constitutional law that deals with the work of public administrators. Its principles are closely related to the doctrines of separation of powers and due process. The traditional divisions of administrative law are the delegation doctrine (the relationship of an agency to the legislature), judicial review (the relationship of an agency to the courts), rulemaking (the procedures an agency follows when it makes law), and adjudication (the procedures an agency follows when it resolves disputes). Newer concerns of administrative law are public access to the records of agencies and the informal discretion of bureaucrats.

Draft Administrative Rules Project

Problem. The institutional setting is the Montana Board of Land Commissioners (MBLC). Assume that you work for the Board and the Board has given you the assignment of implementing the rulemaking authorization in MCA 76-12-112 (attached). Accordingly, you are to draft for public hearing proposed rules governing natural areas on school trust lands from the perspectives of fee generation, recreational use, and conservation.

Work product. The work product is a draft of proposed rules concerning which the MBLC, prior to adoption, will hold a public hearing. Your product should be approximately three manuscript pages (double-spaced, standard margins) and formatted as legislative rules. The draft rules should cover one of the following four topics: (1) over-night camping in natural areas; (2) water recreation in natural areas; (3) winter recreation in natural areas; or (4) hiking and nature viewing in natural areas. Assume that all of these topics are within the MBLC's authority. Also assume that the MBLC's principal charge is generation of recreational fees. A "real" package of draft rules would include an introductory section concerning statutory authorization and intent, but this section is not part of your assignment. In your draft rules, use "may" for the permissive and "shall" for the mandatory and use active instead of passive voice.

Sources. The following sources could be of use to you: interviews with employees of state agencies; pertinent sections of Administrative Rules of Montana, Code of Federal Regulations, and Montana Code Annotated; and a variety of studies and reports concerning natural resource management. Your work product may be derivative, but it may not be a verbatim lifting of existing state and federal regulations.
