### COURSE DESCRIPTION & OBJECTIVES

This course is designed to allow students to develop an understanding of public administration as a field of academic study and an area of professional practice. This course is considered to be the "foundations class" for the MPA program. Specifically, it focuses on the evolution of public administration as an academic discipline and a profession in the real world, the context in which public administration takes place, the meaning of public service in a democratic society, and the importance of personal and professional ethics. The course will be conducted as a seminar. Students must be prepared to discuss reading assignments and participate in analysis of case studies.

The specific **competencies** developed in PSCI 501 are:

- 1) Knowledge of public administration as a field of study
- 2) Knowledge of the political and organization context of public administration
- 3) Knowledge of public administration as a profession
- 4) Written and oral communication
- 5) Awareness of public service values: personal ethics, professional ethics, citizen responsiveness, social responsibility

**Assessment of these competencies** will be based on evaluating contributions to class discussions, five article summaries, and two papers (described below).

**REQUIRED TEXTS:** *There are 4 required books*

***Public Administration: Concepts and Cases. 8/e or 9/e*** by Richard Stillman  
This syllabus uses the 8/e and has been adjusted for both editions.

***Public Administration in the New Century*** by Jeffrey Greene

***Bureaucracy*** by James Q. Wilson

***Classics of Public Administration (4/e, 5/e, or 6/e may be used; the syllabus uses the 6/e)*** edited by Shafritz & Hyde. There are minimal differences between the editions and copies of the 4/e and 5/e will be placed on reserve in the Mansfield Library. The UC Bookstore will have the 6/e.

## COURSE REQUIREMENTS and STRUCTURE

The requirements for the class includes reading James Q. Wilson's *Bureaucracy*, writing five *article summaries from Classics of Public Administration*, and writing two five-page papers (described below). The structure of the course is simple. Each week the class will focus on one major concept of public administration that will be illustrated in the readings and any assigned articles. The case study approach will be used to highlight the concepts. **STUDENTS ARE RESPONSIBLE FOR ALL ASSIGNED READINGS.** After completing the course, students should understand the major concepts of public administration included in this course.

### Grade Weights

Paper 1 .....	30%	Ethics Paper
Paper 2 .....	30%	Three Concepts Paper
Article Summaries .....	20%	Summaries from Shafritz and Hyde reader, <i>Classics of Public Administration</i>
Participation .....	20%	Based on participation in class and on the article summaries

### New Grading System at UM

Please note that the **University of Montana** now uses a **Plus/Minus grading system**. That is, you can receive an A, A-, B+, B, B- and so on. There is not an A+ in the grading system.

To accommodate the **Plus/Minus system** a new grading scale will be used. In **PSCI 501** grades will be assigned based on the following grading scale. This scale and system is more complex than the system used in the past but rewards **As** only to those students whose performance in the class is "exceptional."

<u>Grade</u>	<u>Point Scale</u>	<u>Point Range</u>	<u>GPA</u>
A	93-100	8 points	4.00
A-	90-92	3 points	3.67
B+	87-89	3 points	3.33
B	83-86	4 points	3.00
B-	80-82	3 points	2.67
C+	77-79	3 points	2.33
C	73-76	4 points	2.00
C-	70-72	3 points	1.67
D+	67-69	3 points	1.33
D	63-66	4 points	1.00
D-	60-62	3 points	.667
F	59 or lower	N/A	0.00

### Papers

Write a five-page paper on the following assignments. The papers are due the last session.

Provide a statement of your personal code of ethics. Include at least 5 principles in your statement and give an explanation and justification for each of these principles derived from your reading of the pertinent literature, and the discussions in class. Also discuss whether you believe that a person's personal ethical code every clashes with organizational ethics and expectations. Some believe that two sets of standards exist -- one's personal ethics and organizational ethics. Others argue that the same set of ethical standards should apply and work in organizational settings. Thus, do you believe that there are two sets of ethical standards? Is it possible for the same set of ethics used in our personal lives to be applicable to

organizations in which we work?

Select the three (3) concepts that you find most useful or interesting that were included in the course. Write a paper describing why you feel the concepts are so important.

### **Article Summary Guidelines**

The Shafritz and Hyde text contains a variety of articles. Articles will be assigned on the first night of class. The summaries constitute 20 percent of one's final grade. *You may select articles from the Shafritz and Hyde book or Governing Magazine.*

There are some specific questions one should consider while reading the article and developing a summary.

1. What is the major subject and theme of the article?
2. What is the major question the author addresses?
3. What major points does the author make?
4. What does the author conclude? What suggestions are made?
5. What is the relevance of the article to theory or practice?

**James Q. Wilson's book, *Bureaucracy*.**

All students are required to read James Q. Wilson's, *Bureaucracy*. The book will be discussed later in the semester.

### **Exam**

There is not a formal, written exam in this class.
