- email address: john.domitrovich@skc.edu

Required Materials

Required text is IN CONFLICT AND ORDER: UNDERSTANDING SOCIETY by D.S. Eitzen, M.B. Zinn AND K. E. Smith; 13th edition. Additional reading material will be placed in Moodle. A number of videos and slide presentations will be shown throughout the quarter, and students will be held responsible for their content.

Course Description

Sociology is concerned with the scientific study of human interactions within a societal context. This course will not only zero in on our own society, but it will utilize a cross-cultural focus in order to bring salient aspects of our own culture into relief.

Course Objectives

Knowledge Objectives

1) Following this course, students will have a developed understanding of the process of "doing sociology". The student will be able to apply the symbolic interactionist, conflict and functionalist theories to a wide range of social contexts.

2) The student will gain an appreciation for the cultural variation seen among the world cultures in terms of social structure, socialization and the social use of space and time.

3) The student will develop a basic understanding of various types of social structure and anti-structure and will also gain an understanding of the deindividuation process.

4) The student will understand the basic concepts related to the scientific method (variable, correlation, hypothesis, theory, experimental research design, and operationalizing).

5) The student will have a developed understanding of the essential differences between race, racism, and ethnicity.

6) The student will have a basic understanding of the essential differences between the processes of assimilation and pluralism (multiculturalism).
7) the student will develop a basic understanding of victor turner’s ideas related to structure and anti-structure and the application of these concepts to the 1960’s countercultural social movement.

8) The student will gain a basic understanding of the religious makeup of American society, with an emphasis on the distinctions between liberal and conservative Christians, evangelical Christians, fundamentalist Christians, and the concept of the separation of church and state.

9) The student will be able to define the characteristics of a social movement and will be able to describe various aspects. (immigration policies, sterilization policies, antimiscegenation laws, etc.) of the American eugenics social movement of the 20th century.

Value Objectives
- The student will develop an appreciation for the tremendous diversity of expression seen between individuals and groups. At the same time the student will, hopefully, realize that, despite the seeming differences in social behavior, there exists a commonality that transcends all overt differences.
- Student will assess their own gender role schemas and develop an appreciation for, and an awareness of the cultural change process with respect to American gender roles.

Course Format
There will be three exams, each worth 100 points, the exams will be multiple choice and essay. All three exams must be completed in order to receive a final semester grade.

Grades will be based on the following points:
- 360-400=A (.90)
- 320-359=B (.80)
- 280-319=C (.70)
- 240-279=D (.60)
- Less than 240=F

There will be several extra credit questions presented to the class during the semester. A student may accumulate up to a total of 30 extra credit points that can be applied to the final grade tally.

Attendance is considered essential in order to do well in this course. Attendance is worth 100 points and the student may miss one class without being penalized. For every additional class missed, the student will lose 10 points in the final tally.

If an exam is not taken by a student and the student does not have an acceptable excuse (entailing a medical note from the doctor, court summons, death in family, etc.), the student must take a makeup exam within the next week, and the highest possible grade that the student can receive is a grade of “C” (70%).

If a student has something occurring on the date of an exam that necessitates that they miss the class, the student must contact the instructor before the exam is given to inform him of this situation in order for the absence to be excused.

Please keep all copies of returned and graded extra credit papers until the end of the semester (for your own protection)
Reasonable Accommodations
Reasonable accommodations are provided to students with diagnosed or suspected disabilities through Disability Student Services. If you have a disability that you feel will affect your academic performance in this class, please inform your instructor immediately.
