(TENTATIVE! See attached schedule.)

Office hours: TR 11.00am-noon, and by appointment*
(*but check Moodle for updates!)

Required text: Accounting Theory, 8th edition (Wolk, Dodd, and Rozycki)

Course web site: <https://moodle.umat.edu>

Values

As a young professional, you probably now realize that you face a long uphill climb to achieve your goals. Whether you want to work for a local CPA firm, a Big Four firm, in industry, or somewhere else, your career as an accountant will not always be easy. I cannot climb that professional mountain for you, nor can I move it or lower it. Rather, my goal as your professor is to set standards in the classroom that are appropriate for the level of the course, and then do everything in my power to help you meet those standards.

Now that you have entered the MAcct program, the standards for performance are necessarily higher than in a typical undergraduate course. This course is part of your education as a young accounting professional. You will be treated with the respect that all professionals deserve, and you are expected to accept the responsibilities of a professional in return. While this sounds like a simple concept, its implications are far-reaching. For example, all of you are capable of high performance in this class—if you weren't, you wouldn't be in the MAcct program. However, some students fail to gain an understanding of the material either because they fail to apply appropriate effort to this course, or they apply their effort to the wrong activities.

I will present material and activities that are designed to help you understand the concepts and procedures related to consolidated financial statements, but I will not force you to do the things that will help you learn the material. As a professional, you are responsible for your own motivation, and for making sure that you are learning the material that is presented in the classroom. If you aren't sure whether you're on the right track, it is your responsibility to talk to me about your concerns. I will offer all the help I can, but only if I know that you want it!

The course schedule is given in a separate document. Please note that this schedule is tentative, and subject to change (with advance notice)! **Flexibility and adaptability are important professional attributes**—starting/ending class times, class lengths, and class assignments may change frequently. Although we may not meet on a given day, you should plan for the possibility of meeting during any given course session (i.e., Monday and Wednesday mornings).

Objectives

This course is designed to help you:

1. Gain an understanding of the evolution and structure of the accounting profession in the US.
2. Broaden your understanding of issues within the accounting profession.
3. Practice writing about complex accounting topics.
4. Learn how to research and present on “hot” topics in accounting.

5. Refine the professional skills that the accounting profession has identified as required competencies.

Every activity in this course is designed to achieve one of these objectives. If you are unclear how a particular activity relates to these objectives, please feel free to discuss your concerns with me.

Expectations

Participation

Preparation and participation are **absolutely essential** components of this course. You will significantly improve your grade by preparing for and participating in class. Note that one component of the participation credit will be assigned at my discretion. This component will be based on your attention and attitude in class, your contribution to the course discussion board, and the quality of your participation in class discussions. Finally, you will receive participation credit for submitting progress reports for the class, and for presenting homework problems to the class. These activities will be discussed on the first day of class.

Homework

Most of the homework for this class will consist of readings and questions. **Read the assigned material before class.** You should also prepare answers to the assigned questions. These answers may be collected and graded on any given day.

Presentations

You will give two presentations in this class, one formal and one informal. Dates for these presentations are in the attached course schedule. More details about both of the presentations will be presented in class. Note that the majority of your course grade will be determined by these presentations and the written assignments that accompany the presentations.

Email/web access

The course website (listed above) will be utilized extensively throughout the course for certain activities (e.g., selected homework assignments, midsemester course evaluations, announcements, posting of grades, etc.). You are responsible for checking the website and your email often. Most announcements related to this course will be made via the website and over email.

Rewards

Your course grade will be based on two main components: Research and presentations, and preparation & participation. Specific weights for each of these components are as follows:

<u>Item</u>	<u>Percentage of final grade</u>
Research and presentations:	
Accounting book club paper	15%
Accounting book club discussion	15%
“Hot topic” summary paper	20%
“Hot topic” presentation	25%
Preparation and participation	
In-class participation	10%
Online participation	5%
Selected homework questions	10%
Total	100%

The “fine print”:

Academic integrity

Integrity and honesty are hallmarks of the accounting profession. It is your duty to abide by the University’s academic policies, and it is my duty to enforce those policies. Cheating of any sort will not be tolerated. Cheating, failure to follow instructions, and/or failure to follow course policies may result in a reduced grade or a failing grade at the instructor’s option. From the Provost’s office:

All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or a disciplinary sanction by the University. All students need to be familiar with the Student Conduct Code. The Code is available for review online at http://life.umt.edu/vpsa/student_conduct.php.

The College of Business endorses academic honesty as a pillar of integrity crucial to the academic institution. Academic honesty is an important step towards developing an ethical backbone needed in a professional career. Failure to practice academic honesty is considered academic misconduct. Academic misconduct will be penalized to the fullest extent.

Students are expected to:

- Be knowledgeable of activities that are considered academic misconduct, as defined in section V.A. of the UM Student Conduct Code,
- Practice academic honesty on all exams, quizzes, homework, in-class assignments, and all other activities that are part of the academic component of a course,
- Encourage other students to do the same.

Confusion may arise in what is and is not academic misconduct. Students should ask if they are unsure if a behavior will be viewed as academic misconduct. A good rule of thumb is that any credit-earning activity in a course should represent the true skills and ability of the person receiving the credit. A partial list of situations that are considered academic misconduct is in the COB Professional Code of Conduct (found online at <http://www.business.umt.edu/ethics/professional-conduct-code.php>). If at any point a student is unsure if working with another student is permissible, that student should contact the instructor before doing so.

Calculator policy

The faculty of the Department of Accounting and Finance has approved two calculators for use in all accounting and finance courses. The specific models are the **Texas Instruments BA II+** and the **Texas Instruments BA II+ Professional**. Only these two calculators will be allowed during exams.

Classroom Conduct

Professionalism and common courtesy are expected and students who are disruptive may be asked to leave. If you have questions as to proper classroom behavior, please ask the instructor.

Disability accommodations

Students with disabilities may request reasonable modifications by contacting me. The University of Montana assures equal access to instruction through collaboration between students with disabilities, instructors, and Disability Services for Students (DSS). “Reasonable” means the University permits no fundamental alterations of academic standards or retroactive modifications. For more information, please consult <http://www.umt.edu/dss>.

Drop date

Drop slips **WILL NOT** be signed after **29 October 2018** (the last day to drop/add courses per the official Autumn 2018 Academic Calendar).

Email

UM policy holds that faculty may only communicate with students regarding academic issues via official UM email accounts. Email from non-UM accounts will likely be flagged as spam and deleted without further response. Due to concerns over information security and privacy, confidential information (including grades and evaluations of course performance) will not be discussed via email or telephone.

Emergency procedures

In the event of a campus emergency during class, please follow instructions provided by your instructor or the UM emergency alert system. Failure to do so could hamper efforts to resolve the emergency situation in a safe, timely manner. To sign up for emergency alerts and see more information about UM’s emergency response, please see www.umt.edu/emergency.

Greivance policy

Although conflicts between students and instructors are rare, they do occasionally occur. Please be aware that the standard operating procedure for dealing with such conflicts in the College of Business is as follows:

1. Try to resolve the conflict with the instructor.
2. If you feel that the conflict cannot be resolved between yourself and the instructor, contact the department chair or the MACct director.
3. If, after speaking with the department chair/MACct director and the instructor, you still feel that the conflict has not been resolved, contact the associate dean of the College of Business.

Incomplete policy

University policies regarding incompletes will be followed. In particular, the policy on incompletes is as follows:

The incomplete is not an option to be exercised at the discretion of students. In all cases it is given at the discretion of the instructor within the following guidelines . . . A mark of incomplete may be assigned students when:

1. *They have been in attendance and doing passing work up to three weeks before the end of the semester, and*
2. *For reasons beyond their control and which are acceptable to the instructor, they have been unable to complete the requirements of the course on time. Negligence and indifference are not acceptable reasons.*

College of Business Mission Statement and Assurance of Learning

The University of Montana's College of Business enhances lives and benefits society by providing a world-class business education in a supportive, collegial environment.

We accomplish this mission by acting on our shared core values of creating significant experiences, building relationships, teaching and researching relevant topics, behaving ethically, and inspiring individuals to thrive.

The Master of Accountancy (MACct) program provides breadth and depth in accounting, taxation, and business to develop a high level of understanding, skill and leadership capability for advancement in the accounting profession and other related business careers. The MACct program has adopted the following learning goals for MACct students

Learning Goal 1:MACct students will obtain a deeper mastery of technical accounting competencies.

Learning Goal 2:MACct students will understand the role of the accounting profession in business and the economy, along with the importance of professionalism and ethics in carrying out this role.

Learning Goal 3:MACct students will be effective communicators.

Learning Goal 4:MACct students will apply critical thinking skills.

Learning Goal 5:MACct students will be prepared for certification as a CPA.
