UM STUDENT FROM GLENDIVE WINS
SCHOLARSHIP TO FRANCE

MISSOULA--

A University of Montana student from Glendive has received two prestigious scholarships to study statistics at the Université de Paris, France, during the coming school year.

Michael Dufner, son of Leroy and Ann Dufner, Glendive, will fulfill an academic year in the Institut de Statistique through the scholarships. He has received an Alliance Francaise de New York "Zilkha Foundation" Scholarship worth \$3,000 and a Fulbright Commission travel grant, one of six given nationally each year.

Dufner will receive bachelor of arts degrees in mathematics and French from UM this spring.

He said his original major at UM was mathematics and that he began taking French classes to fulfill the degree requirements. "I liked the French faculty, took more classes and went on the study abroad program to Burgundy for four months last year.

"The French degree sort of slipped up on me and I hardly knew I had enough classes to get it," Dufner said.

While in France next year he will earn a "license," which is roughly the equivalent of one year of graduate work in the United States.

With the education of these combined majors, Dufner said he would probably like to work in an international agency that promotes the exchange of cultural ideas, including the sciences.

Dufner, who will study under the Institut Director Paul Deheuvel, will leave for Paris in September.
