The Developing Person Through Childhood and Adolescence, 9th Edition – Kathleen Stassen Berger
Obtaining the electronic version of this text will suffice.

Course Overview
The development of an individual is a never-ending process. This course is not only about children and adolescence, but also each one of our own lives and development. Although personal anecdotes and experiences are interesting, bear in mind that this course will focus on developmental theories, research, and practice derived from scientific study. This course will take a chronological approach exploring the physical, cognitive, and socio-emotional areas at each stage of development.

Course Objectives
1. Understand basic scientific knowledge, terminology, research results, and theories of developmental psychology from birth through adolescence.
2. Understand normal development and its variations in the areas of cognition, socio-emotional, and physical development from birth through adolescence.
3. Understand relationships between scientific research and practical applications in the areas of child and adolescent development.
4. Understand scientific research methods in developmental psychology.
5. Acquire critical thinking skills in interpreting research in developmental psychology.

Course Assignments & Grading Criteria
Assignments for this class include Quizzes, assignments, and discussions.

Quizzes
- There will be one quiz per week covering one chapter. You will be allowed 40 minutes to complete each quiz. Each will comprise of 10-20 questions and will be worth a total of 20 points.
- Quizzes may be multiple-choice and/or short answer. They will NOT be cumulative.
- Anything from readings, assignments, and slides may appear on Quizzes.
- There is a required Moodle 101 quiz to complete by Sunday of the first week. Completion of the quiz and submission of the certificate will earn you 20 points. Note: this course will be in Snap appearance format.
- All Quizzes must be taken. There will be no makeup Quizzes!
- Quizzes will be administered via Moodle. Please note the following:
  - No late Quizzes will be accepted, regardless of computer problems.
  - No alternative assignments will be made for giving any Quiz early due to travel plans, school projects, or other course requirements. This includes the final.
  - Quizzes will be available for one week (Monday-Sunday), due by 11:55PM on the Sunday of the week that they are due. Once started, you will have 40 minutes to complete a Quiz. Make sure you do not start the quiz until you are ready to finish it in one sitting!
  - Although Quizzes are open book and open note, keep in mind that time is intended for you to read and submit answers to Moodle. It is recommended that you study before the test, as you will not be able to look up each question’s answer in enough time.
  - Again, the honesty policy is in effect, meaning that you are expected to take the Quiz on your own and not confer with others on it.
Save your Quiz frequently! It is recommended to make a note of your answers (in a separate file/document) if the Quiz does not get submitted to Moodle and you need to reenter your answers.

**Assignment Buffet**
- You must choose four of the following assignments over the course of the semester. The four you choose, and the order you select them, will be up to you.
  - Compare/contrast child rearing practices in two different cultures. Based on what you have learned, which elements of childrearing are the most appropriate in each culture and which are troublesome?
  - Naturalistic observation. Find a place where there are babies/children/adolescents (this can be a park, museum, sporting event, etc.) and observe a phenomenon of interest discussed in class. Write a detailed description of what you observe.
  - A young couple with a three-month-old infant is finding it difficult to make ends meet on just one income. They come to you (as a child development expert) and ask for your advice on whether daycare will damage their child in any way. What advice would you give them?
  - How should parents minimize the effects of divorce on children? What factors do they need to consider? What effects should they be aware of?
  - Choose a topic of interest from the class and interview a child, teen, parent, teacher, childcare provider, etc. to gain further insight into the topic.
  - Compare/contrast childhood today with another period in history. What are the pros/coms involved in growing up in Western cultures today?
  - Watch a film focusing predominantly on a child character. Discuss the child’s development over the course of the film in relation to what you have learned in class.
- Papers should be approximately two pages double-spaced. **Size 12-font Times New Roman.** Be sure to integrate concepts discussed in class and cite outside sources when appropriate. **Do not just give your opinion on an issue.**
- You will upload your assignment prior to the deadlines at the top of the moodle page. You may notice that you can complete these assignments at any time and turn them in at any time. This gives you the flexibility to get these assignments done early if you would like.
- Graded as Incomplete, Adequate, Excellent
  - Incomplete – 15-34 points (inaccurate/weak/incorrect answers)
  - Adequate – 35-49 points (complete but may lack in fuller detail)
  - Excellent – 50 points (full explanations, insight, and detail)

**Discussions**
Doing well on the Discussion Board assignment requires consistent and detailed participation each week and is the participation and essay portion of the course. Grades are based on (1) attendance and (2) quality of your posts and do not include any posts made in the “Q &A” Discussions. Full credit requires high quality and maximum frequency posts. The two charts below explain how your discussion posts are graded. The week runs Monday through 11:55pm Sunday night. **You must make your first post of the week by 11:55pm on Tuesday.**

**ATTENDANCE GRADING (30 points possible)**

<table>
<thead>
<tr>
<th>Students must respond to their peers a <strong>minimum of three separate days per week.</strong> You can post more than three days, and post more than three times, <strong>but at a minimum, you must post on three separate days.</strong></th>
<th>3 days</th>
<th>30 points</th>

</tr>
</tbody>
</table>
Once the number of days is calculated, students are then graded based on their contributions to the discussion. The following points are deducted, not added, from the points earned above, to yield a final weekly “attendance” score. (Students cannot earn negative points. The lowest possible score is zero.)

<table>

<th>Students must make a post to the discussion question in the weekly discussion forum. Each weekly discussion question posts will be due by Friday</th>
<th>Each day late</th>
<th>2 pts lost</th>
</tr>
</thead>
<tbody>
<tr>

**QUALITY GRADING**

<table>
<thead>
<tr>
<th>Students must make detailed and thoughtful posts that reflect an appropriate application of emerging knowledge and vocabulary in the topic area. Each post must add value to the discussion and be related to the required readings for the week. Below are additional details of how I grade the quality of your posts.</th>

<tr>

</tbody>
</table>

**Superior:** Your contributions demonstrate a complete mastery of the materials assigned. Your responses might integrate multiple views and/or show strong analysis and reflection on topics and other student’s posts. You provide evidence that you are reading the assigned materials and other student postings and are responding accordingly, bringing out interesting interpretations. You know the facts and can analyze them, apply them to real life scenarios and handle conceptual ideas. It is highly unlikely that you could get full credit in less than two paragraphs.

**Above Average:** Your responses build on the ideas of other participants and dig deeper into assignment questions or issues. When you make intelligent posts during the week, including some good critique of the course material, then you have demonstrated you understand the material, are reading posts of your colleagues, and are contributing to the class. Your posts demonstrate confidence with the materials but may be just a bit off target in one area or another.

**Average:** You have meaningful interaction with other participants' postings. Posts that state, “I agree” or “I disagree” and include a detailed explanation of what is disagreed or agreed upon and why or introduce a perspective or concept that adds to the discussion. However, you may have rambling, lengthy posts with no clear point, your writing has a lack of clarity and comprehension, or there are considerable typos and grammatical errors.

**Below Average:** You answer questions asked by me or other students but do not expand upon your response or you answer questions based only on your opinion, rather than on research or proper evidence. Your posts are unusually short (one paragraph or less) and you fail to demonstrate a clear working knowledge of the material covered for the week.

**Unacceptable:** You will receive little credit in the week’s discussion by just showing up and making trivial comments, without adding any new thought to the discussion. At the low end of the spectrum, no participation gets a “0.” If you are not in the discussion, you do not earn any points. Comments such as
“I agree” or other one-sentence responses will result in zero points. Copying and pasting from a website without providing your own substantial insight is also an unacceptable post- even if you have properly cited your sources. This assignment is an assessment of your understanding of the information covered in this class. Copying and pasting from websites does not demonstrate a working knowledge of the material.

As I’m sure you can imagine, posts and responses must be informed by the reading. Therefore, I expect that the reading assigned for a given week will be completed by Monday (Chapter one is assigned for next week, so I expect it to be DONE by next week). For some weeks, I will include additional readings to help inform your discussion posts.

**Special Note:** I check very carefully for plagiarism in the discussion posts. If you have plagiarized, you will get a zero for the entire assignment. If you plagiarize a second time, you will fail the course. If you engage in flaming behavior in the posts, you will get a zero for the entire assignment.

**Course Grading**

Your final grade for the course will consist of scores on Quizzes, discussion posts, and writing assignments. Your final grade is the percentage of the total points earned divided by total possible points. There is no course curve in this class.

The following chart breaks down the points for each assignment type.

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Possible points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Quizzes (15, at 20 pts ea; including the moodle 101 quiz)</td>

</tr>
<tr>

**Course Policies and Guidelines**

**Announcements**

Students are responsible for all announcements. These may include changes in policy, due dates, or assignments requirements. Announcements are posted in the announcements section of the course or are directly emailed to the students.

**Technology Policies**

Please contact UM Online if you experience technical difficulties. Though I would love to be able to help, I am not qualified to do so. **Critical note: I do not allow technical issues for not having the proper software as reasons for late or incomplete work.** To ensure your protection, please keep technical support contact information available offline and please do not wait until the last minute to complete your work each week! To access technical support (and save their contact information offline) please click on the “Tech Support” link to the left of the page.

**Technical Alternatives**

Also, keep in mind your technical alternative if you have computer difficulties. If you live near the University, campus computers are an option. Otherwise, consider the public library, an internet café, a
computer at work, or a friend or family member’s computer. Have a plan of action in mind so that you can complete the required work each week if an issue arises.

**Assignment Due Dates, Late Work, and Make-up Work**
Assignments are due on Sundays by 11:55pm MST. Please be sure to start your assignments early enough to complete them by the time the week closes.
As a rule, I do not accept late work or allow make-up work.
During the semester, I offer students the opportunity to take advantage of one “freebie” assignment. The "freebie" is meant to be an assignment that a student can chose at random to skip and get full points. For example- if a student bombed a quiz they could use the freebie once and get full points. However, your “freebie” cannot be used on discussion assignments. No reason is required to take advantage of this opportunity, and it is the student’s responsibility to contact the instructor to make this happen. Students are not permitted to use the “freebie” at any time during finals week.

**Students cannot, under any circumstance, make up the discussion posts assignment. Due to the interactive nature of this assignment, students must be engaged in this process throughout the week each week to receive credit.**

To make up multiple missed assignments it is mandatory that you 1) notify your instructor before the time of the assignment and 2) provide proper documentation verifying the reason for your absence.
Examples of proper documentation include a medical note or a death or family emergency. Remember, prior notification and documentation is mandatory! You can provide documentation by 1) scanning and emailing documents or 2) mailing the documents. I do not allow students to make up work until I have received the proper documents. I do not allow make up work during the week of final Quizzes.

**Respect for Diversity and Appropriate Language**
I am committed to fostering a class environment in which all people will be treated and will be expected to treat others respectfully. People with disabilities or other elements of diversity are first and foremost individual people who should be treated with respect. Language used in assignments and class discussions should be respectful and professional at all times. Please use “people first” language in speaking and writing about people with disabilities or other elements of diversity. For example, please avoid phrases such as “the handicapped,” “LD kid,” “autistic child” or other statements that emphasize the disability or other elements of diversity first, rather than the individual. Pejorative terms and threatening or harassing language have no place in a respectful professional discussion or in your assignments.

**Grades of Incomplete**
Departmental and university policies regarding incompletes do not allow changing “incomplete” grades after one year has passed since the “I” was granted.

**Academic Misconduct**
All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or a disciplinary sanction by the University. All students need to be familiar with the [Student Conduct Code](#).

**Plagiarism**
The Student Conduct Code discusses plagiarism. However, it is a serious offense worth re-mentioning. This course requires students to adhere to APA format when citing, paraphrasing, or referencing sources. If you have plagiarized, either intentionally or accidentally, you will receive a zero on the entire assignment. If you plagiarize a second time, you will fail the course.

**Netiquette**
Students must engage in proper “netiquette.” Netiquette or “network etiquette” is a professional and mannerly way of communicating with others in the online medium. Failure to engage in proper netiquette will result in earning a zero for each assignment where an incident has occurred.
Disability Modifications
The University of Montana assures equal access to instruction through collaboration between students with disabilities, instructors, and Disability Services for Students. If you think you may have a disability adversely affecting your academic performance, and you have not already registered with Disability Services, please contact Disability Services in Lommasson Center 154 or call 406-243-2243. I will work with you and Disability Services to provide an appropriate modification.
