Government Budgeting: Theory, Process, and Politics, edited by Hyde (Required)

COURSE DESCRIPTION

PSC 505 is designed to allow graduate students to develop an understanding of public budgeting and financial management. A wide variety of topics will be covered including a survey of the major literature, theories of public finance, major figures, and the politics of budgeting. The class will include a survey of the historical development of budgeting in the United States beginning with the classical period of PA through the contemporary era. A special emphasis will be given to comparing differences between public and private sector budgeting and financial management. The political context in which budgeting occurs will also receive special attention. Although PSC 505 is a "survey course", the course will blend theory and practice. Students will be exposed to the dynamics of the budgetary process (i.e. budget development, budget execution, etc.) and will develop skills that can be taken directly to a job. The course requirements (described below) include analyzing government budgets. The course will be conducted using a seminar format. Thus, greater emphasis will be placed on discussions and interaction than traditional lectures.

COURSE REQUIREMENTS

The general requirements include one exam, a research project, and participation (which includes the articles summaries). The grade weights are specified below.

Exam ................... 40% April 14
Research Project .... 40% Due May 12
Participation ........ 20%

The exam will consist of an objective section, terms & concepts, short problems, and an essay. The research project will involve analyzing a government budget (either a county, city, or agency). The final weeks of class will be used to present these papers. Half of the grade will be based on the presentation. The details of this project will be described in detail on the first
day of class. The presentations are expected to be approximately 30 minutes each. Participation in class discussions is encouraged. This is a graduate seminar and training to be a public manager; communication skills are essential. Students will contribute to their participation through article reports (a brief summary of a relevant article from the Government Budgeting). The last part of each session will be reserved for these summaries -- the last 30-45 minutes. The articles will be assigned to groups.

**Group Article Critique Guidelines**

Articles will be assigned to groups. The group is responsible to have thoroughly read the article, be prepared to present an overview of the article, and be prepared to respond to questions from the instructor and the class. The total time of the presentation should be no longer than 15 minutes. Each group should also develop a summary of their article. A summary is a brief overview of the article. It briefly outlines the article's key themes, major points, and conclusions. There are some specific questions one should consider while reading the article and developing a summary:

1. What is the major subject and theme of the article?
2. What is the major question(s) the author(s) address?
3. What techniques, tools of analysis, or methods are employed to answer the question(s)?
4. What are the major points the author(s) make?
5. What do the author(s) conclude? What suggestions are made?
6. What is the relevance of the article to theory or practice? (What does it mean?)

**ATTENDANCE**

Students are encouraged to make every effort to attend classes. Although no specific policy will be used in this class, excessive absenteeism may have an adverse impact on one's final grade.

**READING ASSIGNMENTS**

Students are responsible for all of the assigned readings. The list below is intended as a guideline to the general subjects that will be covered during class.

**READING ASSIGNMENTS and CLASS OUTLINE**

Session 1 **Introduction** (No readings)

Session 2 **Public Budget in Context**

    Lynch: Chapter 1
