School of Business Administration Mission Statement and Assurance of Learning
The University of Montana’s School of Business Administration enhances lives and benefits society by providing a world-class business education in a supportive, collegial environment.

We accomplish this mission by acting on our shared core values of creating significant experiences, building relationships, teaching and researching relevant topics, behaving ethically, and inspiring individuals to thrive.

As part of our assessment process and assurance-of-learning standards, the School of Business Administration has adopted the following learning goals for our undergraduate students:

Learning Goal 1: SoBA graduates will possess fundamental business knowledge.
Learning Goal 2: SoBA graduates will be able to integrate business knowledge.
Learning Goal 3: SoBA graduates will be effective communicators.
Learning Goal 4: SoBA graduates will possess problem solving skills.
Learning Goal 5: SoBA graduates will have an ethical awareness.
Learning Goal 6: SoBA graduates will be proficient users of technology.
Learning Goal 7: SoBA graduates will understand the global business environment in which they operate.

Course Objectives

This course involves business strategy, which is concerned with answering the question: “Why are some organizations more successful than others?” With that in mind, we first analyze the external environment and the firm’s unique features, then consider measurement tools, and finally investigate interrelationships between firms within industries. The culmination of the course is a comprehensive, well-reasoned strategic recommendation for a business.

Analysis of the firm within its industry and the structure of the industry; competitive positioning and competitor analysis; decision-making under conditions of uncertainty; developing a competitive advantage in international markets

By the end of this course, you will be able to:

- Assess an industry to determine its attractiveness
- Evaluate a business using specific analytical techniques and frameworks
- Understand how to compare and choose among strategic alternatives

To do this we will build from the content of your previous courses. In addition to the team projects developing strategic recommendations for existing businesses, we go in-depth with cases and particularly in the brewing industry. I have arranged for a substantially reduced rate to get access to a web portal developed specifically to help breweries with their strategic plans.

Why use a textbook/web portal targeted toward breweries? Because they provide an accessible, hospitable, and fun setting for exploring strategy that is relevant to Montana residents. Also, learning concepts grounded in a particular industry adds context and understanding. Breweries are booming in Montana, they are a business that both manufacture and provide service. How do they add value? What do their value chains and activity maps look like? How do they track progress? Decide to diversify? In a small package they represent a multi-faceted business model. We will supplement the Crafting A Strategy portal with outside readings, cases, and speakers to bring in other business examples and industries. As an industry, breweries offer us an opportunity to ask industry level questions as well. How do they survive given their small market share? Is the market saturated? How do they position in a field of brands, local, regional, national, and international? How does consolidation impact the industry? Is the industry saturated? Why is venture capital entering the industry?

Course Format and Expectations:

1. BMGT 665 is fast paced. Our class time will be devoted to lecture, discussion, and case analysis. We immediately use content from BMGT 604 – Competitive Strategy.
2. Preparation expected before class:
   - All reading and assignments for the day have been completed,
   - You have given thought to the topics to be discussed,
   - You are prepared with questions about relevant issues you want to discuss, explore, or challenge.
   - All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or disciplinary sanction by the University. All students need to be familiar with the Student Conduct Code. The Code is available for review online at [http://life.umt.edu/vpsa/student_conduct.php](http://life.umt.edu/vpsa/student_conduct.php)
   - Laptop computers may be used for note taking in class, but not for e-mailing, stock trading, gaming, or other non-class activities. If not used appropriately, a student risks losing the privilege to use electronics for the rest of the semester. Students are expected to abide by the SoBA Code of Professional Conduct [http://www.business.umt.edu/Soba/SoBAEthics/CodeofProfessionalConduct.aspx](http://www.business.umt.edu/Soba/SoBAEthics/CodeofProfessionalConduct.aspx).
3. Electronic devices must be turned to silent during class time.
4. The University of Montana assures equal access to instruction through collaboration between students with disabilities, instructors, and Disability Services for Students. If you think you may have a disability adversely affecting your academic performance, and you have not already registered with Disability Services, please contact Disability Services in Lommasson Center 154 or 406.243.2243. I will work with you and Disability Services to provide an appropriate modification. Please contact me within the first couple of weeks to arrange for accommodations.

Resources
• **CraftingAStrategy.com** For class, students purchase a subscription to this web resource targeted at strategy for breweries. You can access your subscription at craftingastrategy.com/user/register/umt_bmgt_665_60_jan2016, for $97. Use the URL listed since this rate is greatly reduced for us. A link with instructions is in the Moodle site.

• **Moodle** – Additional resources are posted on our MoodleRooms site. Typically, they are PDF files.

• **Harvard Cases** - Students purchase the four cases from the Harvard Business Publishing site. The link https://cb.hbsp.harvard.edu/cbmp/access/45964849 will take you to my electronic course pack for the three cases used specifically in this course. The total cost should be about $12.

• Encouraged but not required: Wall Street Journal student subscription [WSJ.com/studentoffer](https://WSJ.com/studentoffer). It should be 15 weeks for $15.
