

Faith and Climate Action

FAITH AND
CLIMATE ACTION
Montana

Who are we?

Faith and Climate Action is a multifaith coalition based in Missoula, Montana. We work to educate individuals and faith communities about climate science and impacts; create space for spiritual reflection on climate-related social and environmental issues; and facilitate action to address the climate crisis via advocacy and local organizing.

A wide-angle landscape photograph showing a vast, flat field of dry, golden-brown grass in the foreground. In the middle distance, a single, dark green tree stands isolated. Beyond the field, there are rolling hills and a range of mountains in the background. The sky is filled with large, white, fluffy clouds against a pale blue background. The overall mood is serene and contemplative.

Why is the faith voice important?

What do we do?

Faith and Climate Action Montana

What are we working on now?

- Climate Conversations
 - Monthly gatherings on the intersections of faith and climate
- Statewide campaign letter
- Church & congregation empowerment
