

Submission Title:

Singing Beetles? Figuring out how male rhinoceros beetles produce their courtship songs.

Authors:

Devin Hunt, Nathan Barton, Chelsey Caldwell, Cole Sander, Josey MacDonald, Romain Boisseau, Cerisse Allen, Douglas J. Emlen

Submission Contents:

Singing Beetles_Recorded Presentation –

This file is Read-Only and contains the animated and narrated PowerPoint presentation associated with this work. In addition to voiceover narration, the file contains embedded sounds and videos that accompany the work, as well as the script for the presentation. Given the size of the embedded audio/videos, it was not possible to upload this file through a standard recording.

To watch the recorded presentation, click the “Slide Show” heading and click “Play from Start.” The presentation will proceed automatically.

Singing Beetles_Presentation Only –

This file contains a pdf version of the PowerPoint presentation without any animations, sounds, or narrations. While the majority of the slides contain some degree of animation, the images associated with the work are visible in this file. This pdf does not contain the script.
