

# SENTINEL

There are fourteen honorary and professional fraternities on the Montana campus, the greater number of which are national organizations. Practically all of the schools and departments are represented by such honorary organizations in their particular line of work.

Some of the schools and departments have separate organizations for the men and women, while in others the men and women both belong to the same organization.

As a general rule, only majors in the particular departments are admitted to membership in the various fraternities. A great deal of importance is laid upon scholarship as well as distinctive ability in the choosing of members for these honorary organizations.

## Phi Delta Phi

Phi Delta Phi is an international honorary legal fraternity, founded at the University of Michigan, in 1869. It is devoted to the promoting of an active interest in the study of law, looking toward a better foundation of legal and ethical knowledge in the practice of law.

The local chapter, known as Clayberg Inn, was installed in May, 1922, absorbing the local fraternity Pi Delta Alpha. There are eighteen active members in the chapter, including Professor Robert E. Matthews, affiliated from the University of Chicago, and the honorary members, Dean C. W. Leaphart, Professor H. M. Colvin and former dean, A. N. Whitlock.

Membership is limited to law students who have thirty-five law credits, with a grade of C or better, and have expressed an intention of engaging in the active practice of law.

# SENTINEL

At the present time there are eleven national and six local Greek letter fraternities represented at the University.

Interfraternity contests are held each year among the men's organizations in basketball, baseball, tennis and relay. The past year Sigma Chi took the cups awarded for basketball, baseball and the relay. The fraternities at present are carrying on the competition on the tennis courts.

The women's interorganization games are under the supervision of the Women's Athletic Association and include not only the Greek letter organizations but also Craig Hall, Out-of-Town and Town teams. There are only two sports in which the women compete—the Out-of-Town team won the basketball championship and Alpha Phi won the baseball cup for the third consecutive year.

This council is composed of two delegates from each fraternity on the campus and is the governing body of the fraternities. It has charge of the arrangement of all interfraternity contests. It also acts as a judiciary board for the settlement of any difficulties which may arise among the men's Greek letter organizations on the campus.

# SENTINEL

## Pan-Hellenic Council

The Pan-Hellenic Council is the governing body of the women's fraternities. Each fraternity sends two delegates to the council to represent the interests of their organization. Like the interfraternity council, this body makes the rules governing the intersorority games and rushing rules for all the women's Greek letter organizations.

## Neophytes

In accordance with the growth of the State University there has come a growth, or at least an expansion, in the fraternity field. Three new women's fraternities made their initial appearance on the Montana campus during the year 1922-23. We welcome Omega Xi, Beta Zeta and Phi Beta to the ranks of college fraternities.

All three have installed themselves in permanent houses and are already taking an active part as groups in campus and interorganization activities. Each has chosen a national organization which represents their ambition of achievement.

1923

## Recognized by Nationals

Two local fraternal organizations which found birth last year have in one year been recognized by their respective national fraternities with charters in the national organizations. Chelys Club, women's local fraternity, has been granted a charter of Alpha Chi Omega. The Karnak Klub has been installed in Alpha Tau Omega.

Iota Nu early in April received the induction officers of Phi Sigma Kappa and they, too, are now in the ranks of the national fraternities on the campus.

The fact that in one year three national fraternities have seen fit to grant charters at the University is indication that the school is growing rapidly and that the next few years will see an equally broad expansion in this and many other branches of endeavor.
