Western Montana's Shopping Center — Since 1865

**Scientific Lumbering Produces Many More Highly
Useful Products for LESS MONEY, for You.**

If the felling of trees were continued indiscriminately, as has happened in the past, in too short a time the value of a piece of "wood" would be as gold.

Scientific use of forest stands and scientific use of the yield is not only saving and perpetuating our natural supply, it is also saving money for the ultimate consumer of millions of lumber products and by-products. J. Neils Lumber Company is one of the larger companies which is practicing common-sense lumber in sustained yield and waste use for the benefit of all.

SUSTAINED YIELD is a program providing for "Selective Cutting" rather than "stripping." It preserves forest, stimulates growth, protects natural water supply and wildlife, assures permanent economy for mill towns, and provides more public recreational facilities.

The Power of a Free People . . .

The Pharoahs had power galore at their command . . . man power . . . slave power. They squandered it on such useless projects as the pyramids. The glory of Egypt has waned.

The electric power used in American industry gives an average manufacturing worker the equivalent energy of 160 men working with him on his job all year long. The resulting production of useful goods available to ALL of the people has made America great.

When men are socialized or enslaved they lose the incentive to produce more and better goods at lower costs. Government ownership of the electric power industry would be a major step towards complete socialization of this country.

Your generation will soon be handling the social, economic, and political affairs of the nation. Don't let America go the way of Egypt and Europe. Be active and vigilant to keep America free.

THINK!

The Montana Power Company

"Something new every day."

Graduates of M. S. U.

are very special customers of
COLE's in Billings. Naturally
we want them to meet only
the "right people" in fashion---
That's why COLE's presents
more nationally famous brands
than any other Montana store.

Integrity

Integrity in the drug business begins in the prescription department. Our pharmaceuticals are the finest procurable and our pharmacists the most highly skilled.

Yet we feel that we can claim integrity in another way . . . by practicing fair-profit merchandising of the most reliable brands.

SO . . . save on at the Save On Drug . . . you'll be buying the best for less.

KNOW MONTANA . . .

OUR SYSTEM OF HIGHER EDUCATION

by Dr. Francis A. Thompson, President Montana School of Mines

Montana's pioneers caught the vision and held the faith that the future of their new commonwealth lay in the youth of the generations yet to be. History shows that immediately upon emergence from the swaddling clothes of territorial status, the pioneer legislators proceeded to make provision first for grade schools, then for high schools, and next for a state-supported system of higher education.

Their course in higher education was in large measure charted by the Enabling Act of 1889, which gave to the new state specific grants of land, (1) "for university purposes;" (2) "for a school of mines;" (3) "for state normal schools," and (4) "for agricultural colleges."

It was natural, therefore, that the legislative assembly, meeting in its third regular session in 1893, should act on the assumption that the designation of four separate land grants, implied four separate institutions, and it proceeded to create simultaneously, a university at Missoula, a school of mines at Butte, a normal school at Dillon, and an agricultural college at Bozeman. Thus 56 years ago, the pattern of higher education was set. In 1927 provision was made for the Eastern Montana State Normal School at Billings, and in 1929 for the Northern Montana College at Havre. All four institutions were made "units" of a consolidated system which was designated "The University of Montana." A co-ordination officer, responsible to a State Board of Education, with enlarged powers, was provided for and given the title of "Chancellor." Naturally the new units at Billings and Havre were "born into this system," and are integral parts thereof.

ANACONDA COPPER MINING COMPANY

"Work for a Greater and More Prosperous Montana."

This is a project that should include all Montanans.
