Resolution Regarding Bike Safety Issues Education on Campus

Whereas, injuries and accidents have occurred on campus as a result of unsafe cyclists;

Whereas, construction on campus has reduced the space available for pedestrians and increased the risk of accidents;

Whereas, some students are concerned about unsafe cyclists on campus;

Whereas, many cyclists are unaware of their responsibilities while riding on campus;

Whereas, there are not a sufficient number of bike racks;

Whereas, the University of Montana administration and Office of Public Safety have the responsibility to ensure that campus is safe for students, faculty, staff and the general public;

Whereas, bike theft and enforcement of existing bike regulations have been a problem for the Office of Public Safety;

Therefore, Let It Be Resolved, that the Associated Students of The University of Montana (ASUM) urge the UM administration, the ASUM Office of Transportation, and the Office of Public Safety to adopt a bike education program to educate the UM community about the responsibilities of cyclists and current regulations regarding cyclist and pedestrian safety.

Therefore, Let It Be Further Resolved, that ASUM urge the administration to restore funding for sidewalk improvements, following the guideline that all sidewalks, including replacement sidewalks during construction, should be six (6) feet wide, or as close to six feet as possible.

Therefore, Let It Be Further Resolved, that ASUM urge the administration and the Office of Public Safety to add additional bike parking as needed.

Therefore, Let It Be Further Resolved, that ASUM urge the administration and the Office of Public Safety to enforce the city of Missoula’s mandatory registration program;

Therefore, Let It Be Further Resolved, that ASUM urge the administration and the Office of Public Safety to consider bike “dismount zones” on the congested parts of campus during school hours if bike-related issues continue.

Passed
3/8/06
Resolution in Support of Vice President Robert Duringer and Alternative Revenue Generation

Whereas, rising tuition costs serve as one of the greatest problems facing the student body at The University of Montana;

Whereas, appropriations from the state remain tenuous from each legislative session to the next;

Whereas, ASUM opposed the planned retirement community in 2005;

Whereas, students would have benefited from the money generated by the retirement community;

Whereas, the exclusive contract with the Coca Cola Company has served as a mode of alternate revenue generation much less intrusive for the UM community than the proposed retirement community;

Whereas, part of ASUM’s mission is to work with the administration to help keep tuition and fees as low as possible, therefore making education more affordable and accessible;

Whereas, less intrusive solutions to the funding problem, like the Coca Cola contract, will inherently help stay more intrusive methods of revenue generation like a retirement community;

Whereas, the contract between the University and the Coca Cola Company has not led to a deterioration in the educational or aesthetic quality of the University;

Whereas, it would be imprudent for ASUM to attempt to bind the hands of the administration in all of its alternate generation efforts;

Therefore, Let It Be Resolved that the Associated Students of The University of Montana (ASUM) support Vice President Duringer and The University of Montana Administration's ongoing efforts to alleviate budgetary problems at The University of Montana through less obtrusive alternate revenue-generation solutions that do not detract from the educational or aesthetic quality of the University in order to keep tuition and fees as low as possible for students at the University.

Let It Be Further Resolved that a copy of this resolution be sent to all of the necessary parties.

Passed 13 Y, 6 N, 1 A

3/8/06
Resolution in Recognition of Marleen and Phil Bain's dedicated service to The University of Montana

Whereas, Marleen and Phil Bain, both of whom have long served the University of Montana (Phil: 32 years; Marlene: 22 years), have announced that they will retire in March; and

Whereas, In her service as an internship coordinator Marleen has helped students to gain real-life experience while attending school; and Phil, as UM's registrar has guided this essential but often understated office through significant technological advances;

Therefore, Let It Be Resolved that the Associated Students of The University of Montana (ASUM) thank Marleen and Phil for their dedication and their significant contributions to The University of Montana and offer them their best wishes for a happy and fruitful retirement.

Resolution regarding Smoking on Campus

Whereas, studies show that secondhand smoke kills;

Whereas, the Montana State Constitution guarantees clean air and water;

Whereas, as a public institution The University of Montana-Missoula is bound to uphold the constructs of the Montana State Constitution;

Whereas, policy of UM-Missoula is that smoking is prohibited within 25 feet of all buildings and within 75 feet of Miller and Jesse Halls;

Whereas, cigarette disposal receptacles are located well within the no smoking zones 25-foot limit at various University locations;

Whereas, any smoke that emits from these receptacles is secondhand smoke;

Whereas, these receptacles encourage people to congregate, while smoking, within the no smoking zones 25-foot limit;

Therefore, Let It Be Resolved, that the UM-Missoula enforces its current policy regarding smoking on campus;

Let It Be Further Resolved, that the administration reconsider its policy regarding the location of cigarette receptacles and the smoking policy in general; and,

Let It Be Further Resolved, that ASUM encourages the administration to consider the possibility of extending the 25-foot rule no smoking zones outside of buildings.

Let It Be Further Resolved that a copy of this resolution shall be sent to the UM Administration.
