Office Hours: MTWR 11:10 – 12 and by appointment

Email: daniel.spencer@umontana.edu

**Course Description**

In this course we will study current trends in neoliberal economic globalization, and its effects on efforts to work for social justice and environmental sustainability, particularly in "two-thirds" world nations, by examining the positions of its proponents and opponents. To do so, we will begin by examining four contemporary models of globalization as formulated by Rebecca Todd Peters in her book, *In Search of the Good Life: The Ethics of Globalization*. We will then examine the history of economic globalization and the phases it has passed through, and the current work of the World Bank, the International Monetary Fund, and the World Trade Organization and its implications for democracy, social justice, and ecological wellbeing. To understand environmental impacts of globalization, we explore political economy and political ecology approaches to understanding global capitalism. We then examine the implications of globalization for the earth in a time of climate change, and examine proposals for climate capitalism to address these concerns within a global economic framework. In addition to the formal policy and political dimensions of these issues, we will examine grassroots resistance efforts and networks, and assess their impact on globalization. Students will be encouraged to consider diverse perspectives and arguments in formulating their own views of and responses to globalization.

**Objectives & Learning Outcomes:**

Upon completion of this course, students should be able to:

1. Articulate the distinctive ideas, and social and historical contexts, of influential thinkers and theories about economic globalization and the global economy.
2. Think critically about the social and environmental effects of different models of globalization in different societies and their interactions with the natural world.
3. Articulate and think critically about the history and roles of the major institutions influencing the global economy, particularly the International Monetary Fund, World Bank, and World Trade Organization.
4. Analyze grassroots alternatives to the dominant contemporary models of globalization.
5. Analyze the moral dimensions of contemporary models of globalization and articulate one’s own personal perspective and position.
6. Incorporate information literacy into analysis of globalization issues and writing assignments by finding, evaluating, analyzing, and synthesizing information from diverse sources.
7. Write more clearly and effectively about complex theoretical issues related to the global economy with respect to social justice and the environmental issues and be able to communicate these issues and multiple perspectives fairly and clearly to diverse audiences.

Ch 9: Governing the Carbon Economy  
Ch 10: What Futures for Climate Capitalism?

FINAL EXAM: Monday, December 9, 1:10—3:10 pm. Bring Final Essays to Exam

GRADING POLICY

1. Active Participation in Reading and Class Discussion: expected  
2. Critical Response Essay to the Peters Text with Revision: 30%  
3. Bretton Woods Institution case study analysis: 20%  
5. Take-Home Final exam essay: 20%

Attendance: Regular attendance and participation in the class is expected. More than three (3) absences will result in losing any benefit of the doubt on your final grade. More than five (5) absences will result in one grade reduction. More than seven (7) absences will result in a failing course grade. Late arrivals in class will count as an absence. (Note: If you have a valid reason for missing several classes, such as illness or other conflicting commitments, you still must speak with the instructor).

Academic Dishonesty and Plagiarism: Plagiarism is a serious violation of academic integrity. All work submitted is expected to be the student's own. All use of other materials must be documented. Any acts of
plagiarism or academic dishonesty will result in automatic failure of the course, and may result in further academic punishment. Please review the University’s plagiarism definition in the catalog: “Students who plagiarize may fail the course and may be remanded to Academic Court for possible suspension or expulsion.” If you have any doubts about plagiarism and attribution of others’ work, please consult your instructor.

Note Re Papers: Papers are due in class on or before the date listed in the syllabus. Unless you have made a prior agreement with me, I will take off one grade level (A becomes A-) for each class day an assignment is late. Papers with an undue number of errors of punctuation, spelling, or grammar will be returned ungraded for correction and will receive one full grade reduction. Written work will be evaluated in terms of your depth of critical analysis, thoughtfulness of reflection, clarity of writing, and ability to address issues raised in the text and in class on the topic at hand. Grades given reflect the following criteria of judgment:

- **F**: Failure to meet minimum requirements
- **D**: Unsatisfactory, but some effort to meet minimum requirements
- **C**: Satisfactory; meet minimum requirements of assignment but not much more
- **B**: Good to Very Good: thoughtful reflection, good analysis, clear writing style
- **A**: Excellent depth of critical analysis, thoughtfulness of reflection, and writing style; demonstrate creativity and mature analytical skills in going beyond the primary requirements of the assignment

**Note:** Grades will be recorded using pluses and minuses.

**DESCRIPTION OF WRITTEN ASSIGNMENTS**

1. **Critical Response Essay to the Peters text:** This 8-10 double-spaced page essay should provide a critical exposition and a critical response to the text by Rebecca Todd Peters, *In Search of the Good Life: The Ethics of Globalization*. For this essay, you will turn in an initial paper that I will grade; you will then revise the first essay for the final grade. The first paper is worth 20% and the revised paper 10% of your final grade. The first 6-8 pages of the essay should be a careful exposition that summarizes and explains the main themes and arguments presented in the text. [Note: Your essay must contain specific references to and relevant quotes from the text to support your exposition and argument. Cite the page number(s) in parentheses that show the pages from where you draw the information for your exposition. Your audience is someone who has not read the text; don’t assume that s/he knows the arguments or issues, so explain them carefully and clearly.] Clearly explain Peter’s overall thesis and argument, and then show how she develops it in each of the chapters. The final 3-4 pages should be a thoughtful assessment and critique of the author’s arguments: where do you agree with Peters, where do you disagree, and why? What do you see as the strengths and weaknesses of her arguments, and why? What is your overall assessment of the text? Why? **Citation Style:** Use the Chicago Manual Style author-date system for citations. See [http://library.osu.edu/help/research-strategies/cite-references/chicago-author-date/chicago-manual-of-style-author-date-system-citation-style-guide/](http://library.osu.edu/help/research-strategies/cite-references/chicago-author-date/chicago-manual-of-style-author-date-system-citation-style-guide/) for examples of how to use this style for citing pages in books. All quotes must include page references in the citation.

**Note:** Attach your first essay with comments to your revised essay and submit together.

**Graduate students:** In addition to the assignment above, your response essay should draw on a minimum of five additional academic sources (i.e., peer-reviewed article, scholarly texts, etc.)
to develop your analysis, and should be 10-12 pages in length. I shall expect a level of analysis commensurate with graduate-level work.

The Peters essay is worth 150 points, or 30% of your total grade. **Due dates**: First Peters response essay: Wed, September 25; Revised Peters essay: Wed, October 9.

2. **Bretton Woods Institution Case Study Analysis**: Choose and analyze a current case involving one of the Bretton Woods Institutions (IMF, World Bank, WTO). **Option A**: Go to the website of *The Bretton Woods Project* (http://www.brettonwoodsproject.org/project/index.shtml), click on the “Topics” page, and look for a topic or case. (Note: you can also search for articles on a wide variety of topics or countries on this website); or **Option B**: find a current case or topic on your own. **Email your topic/case to me no later than Mon, October 14 at daniel.spencer@umontana.edu.**

Then, in your 6-8 page paper, you should do at least 4 things: (1) Describe the case clearly, but succinctly; (2) explain the response or approach to the case from the perspective of the BWI involved; (3) explain/present at least one critique of the BWI involvement from the perspective of an organization that is critical of the BWI; (4) give your own response and analysis, explaining what you think should be done and why. Your paper should have at least 4 sources other than those assigned in class, and will be considered stronger to the extent that you also can use the texts read in class thoughtfully in developing your response. The essay is worth 100 points, or 20% of your total grade. **Paper Due: Wed, October 23rd.**

**Graduate students**: In addition to the assignment above, your BWI Case study analysis should draw on a minimum of eight additional academic sources (i.e., peer-reviewed article, scholarly texts, etc.) to develop your analysis, and should be 8-10 pages in length. I shall expect a level of analysis commensurate with graduate-level work.

3. **Critical Thought Essay on a Topic in Globalization and Political Economy/Ecology**: For this essay, pick one of the three main topics presented in *Paths to a Green World*: (1) Global Trade, (2) Global Investment and Corporations, or (3) Global Finance. Then, in your 8-10 page paper, you should do the following:

   (1) Give an exposition of what are some of the main characteristics and issues associated with it in the context of Globalization, using the relevant chapters from *Paths to a Green World* and Peter Newell’s *Globalization and the Environment*.

   (2) Choose and explain one current case that illustrates some of these features and dynamics. Then,

   (3) Assess your topic from the perspective of each of the “four visions” presented in *Paths to a Green World* (Market Liberal, Institutionalist, Bioenvironmentalist, Social Green): what does each see as the strengths or weaknesses, contributions or problems this area of the global economy makes with respect to issues of economic development, social justice, and environmental sustainability? Finally,

   (4) What is your assessment, and would you propose any alternatives?

In addition to the Clapp and Dauvergne, and Newell and Paterson texts, you should incorporate at least four additional academic sources to develop your case study and analysis of the topic. The essay is worth 150 points, or 30% of your total grade. **Paper Due: Mon, November 25th.**
Graduate students: In addition to the assignment above, your response essay should draw on a minimum of eight additional academic sources (i.e., peer-reviewed article, scholarly texts, etc.) to develop your analysis, and should be 10-12 pages in length. I shall expect a level of analysis commensurate with graduate-level work.

4. Take-Home Final Exam: This 6-8 page final essay should be your own thoughtful assessment of what should be done in response to economic globalization in an age of climate change, and why? Should we promote and participate in economic globalization, as neoliberal and social equity liberals advocate, as the best response to the world’s social, economic, and environmental needs? Or should we oppose current dominant models of globalization, as critics such as Rebecca Todd Peters and Richard Peet advocate? If so, what kinds of alternatives are needed in the social, economic, and environmental realms? What kinds of issues does climate change raise for different models of globalization? Are the proposals made in Newell and Paterson’s text, Climate Capitalism, realistic and viable? Why or why not? Specific instructions for the essay will be handed out the final day of classes. Due: Monday, December 9th, 1:10 pm during the final exam period. Each student will bring his/her essay during the Final Exam period, where you will have the opportunity to present a synopsis of your arguments. Undergraduate and Graduate students: The Final essay is worth 100 points, or 20% of your total grade.

Graduate students: In addition to the assignment above, your final essay should draw on a minimum of five academic sources (i.e., peer-reviewed article, scholarly texts, etc.) to develop your analysis, and should be 8-10 pages in length. I shall expect a level of analysis commensurate with graduate-level work.
