ASUM Office Manager
WHEREAS, ASUM Transportation started as a demonstration project to introduce and promote transportation options to the campus community and has been considerably successful at that goal;

WHEREAS, ridership has increased on the ASUM Office of Transportation (ASUMOT) Park-N-Ride service from 3,860 riders during the 1999-2000 school year to a projected 260,000 during the 2006-2007 school year;

WHEREAS, ASUMOT expanded in Spring of 2003 to include a late-night shuttle service called UDASH, which provides over 15,700 rides per academic year;

WHEREAS, in 2005 ASUMOT added a second Park-N-Ride route to East Broadway, on which ridership has tripled in the last year;

WHEREAS, the cost per ride on ASUMOT’s Park-N-Ride is $0.53, which is far less than 25% of the national average of $2.19 per ride;

WHEREAS, ASUMOT promotes bicycling, works on infrastructure projects to make sure that bicyclists are considered and prioritized, develops bike maps, works to improve parking for cyclists, and developed the new Bike Ambassador Program which teaches and promotes safe and responsible bicycling habits;

WHEREAS, promoting and providing transportation options saves students money that directly helps them stay in school and invest in the local economy;

WHEREAS, the cost of operating ASUMOT services is steadily increasing with the cost of fuel, equipment maintenance and labor;

WHEREAS, ASUMOT is currently funded as if it were still a demonstration project, even though the services it provides have expanded greatly since its inception;

WHEREAS, to continue to operate and provide a safe and sustainable service, ASUMOT funding must increase;

THEREFORE, LET IT BE RESOLVED that the Senate of The Associated Students of The University of Montana (ASUM) supports an eight dollar ($8) fee increase for ASUM Transportation and a two dollar ($2) increase for UDASH to fund these services properly.

LET IT FURTHER BE RESOLVED that ASUMOT will then allocate a substantial portion of their budget to upgrading equipment with better access, hiring a Park-N-Ride Road supervisor, and adding a COT shuttle route. ASUMOT will also allocate a substantive increase to bike facility/parking funds and bus fuel funds to continue to provide quality service at the lowest possible cost to students.

LET IT FURTHER BE RESOLVED that the ASUM Senate will submit this proposal to a student referendum in April 2007.

Resolution Supporting Revised Plan for Arthur/5th/6th Project

Whereas, the Montana Department of Transportation (MDT), in partnership with The University of Montana and the City of Missoula, has been working on a reconstruction project for the intersections of Arthur and 5th and 6th streets;

Whereas, the original plans put forward by MDT would have turned the intersection at Arthur and 5th Street into a Reserve Street-size intersection by making it 100 feet wide;

Whereas, MDT’s original plans met with strong student and community opposition for its public process, size, lack of safety for pedestrians and bicyclists, and amount of land taken to build the project;

Whereas, in April of 2006, the Associated Students of The University of Montana opposed MDT’s preferred alternative construction plans (SB 54, 05-06), citing specifically the lack of pedestrian and bicyclist safety and the large nature of the project;

Whereas, MDT’s environmental assessment received much opposition from the community and students;

Whereas, The University of Montana has altered MDT’s plan to address student and community concerns;

Whereas, the revised plan reduces the project by 20 feet, removes one north-bound lane of traffic, and one turning lane between 5th and 6th streets, and adds additional lighting and pedestrian amenities;

Whereas, the revised plan also makes Madison a two-way street at the end of lot P, which will reduce confusion for visitors traveling to campus;

Whereas, the revised plan also saves land in Rankin Park;

Whereas, the University’s revised plan is endorsed by the ASUM Transportation Board;

Therefore, Let It Be Resolved that the Associated Students of The University of Montana support the University’s revised plan.

Therefore, Let It Be Further Resolved that ASUM requests that UM and the ASUM Office of Transportation work with community members to explain the benefits of the revised project.
