DORMITORY

TURNER HALL

Turner Hall, the smallest girls freshman dorm, has an all-dorm meeting.
Robin Gray, one of Jesse Hall’s junior sponsors.
JESSE EXECUTIVE OFFICERS
JESSE OFFICERS

Aber's goal this year has been to create one dormitory as a single unit. At the beginning the 1969-1970 school term the women's section and the men's section were separated as in two different dorms. Since then the elevators have been opened to both men and women, the stairwells are open to both and they all receive the same visitation hours. There is both a man and a woman president and two members representing each floor on dormitory council.

Also this year, Aber Hall has had two queens. Bobbie Nelson was chosen Foresters Ball Queen and Shirley Terpin was selected Theta Chi Dream Girl.
An Aber resident reaches hopefully for mail.

Visitation hours were equal for both men and women of Aber.

Aber's bowling team competed regularly at the University Center.

Kaye Caskey, news editor on the Kaimin, sits before a work-piled desk.

KAIMIN

The only UM newspaper on campus for 71 years, the Kaimin was published this year every Tuesday, Wednesday, Thursday and Friday by the Associated Students of the University of Montana. It had a lot of freedom in choice as to what to print and only ran into one problem. The Publications Board threatened to withdraw part of the Kaimin's funds and incorporate them into The Establishment, a daily newsheet on campus. The reason was because it was felt that the Kaimin did not devote enough space to campus news. Nothing was done to further the plan and the Kaimin remained the same.

WOMENS

RECREATION

ASSOCIATION
The purpose of the Women's Recreation Association is to provide opportunities for girls interested in recreational and athletic activities. The year was highlighted by various events such as Co-Rec. nights, on which both boys and girls participated in the gym, the teachers banquet, the Steak Fry on May 6 and the athletic tournaments. The sports activities in WRA are volleyball, swimming, bowling, basketball, badminton, softball, football, tennis and track.

From left: Peggy Clapp, basketball manager, Judy Sidensticker, swimming manager, Kim Rochleau, track and field manager, Bev Barnes, tennis manager.
WRA participated in several basketball games with the other teams during the year.
SILVERTIP SKYDIVERS

The Silvertip Skydivers have been organized as a collegiate sport parachuting club for 13 years this year. During their thirteenth year they made the news as they set the new state high altitude jump record at 26,500 feet. Also, in March of 1970 they participated in the Northwest Collegiate Parachuting Championships and placed fourth in the competition.
Left to right: Dave Healow; treasurer, Paul Spranger; president, Les Roth, Truman O’Brien, Glen Kapitzke, Rich Paulson, Dewayne Tomasek; vice-president.
The Hellgate Flying Club has been in existence on the UM campus for more than twenty years. This year, the UM club competed with the Bozeman MSU club for the first time since our program has been started. Hellgate won the meet and as of this year there will now be an annual meet between the two respective schools. The flying club is a member of the National Intercollegiate Flying Association which has an active membership of many of the top ranking schools in the country. Throughout the year, the Hellgate Club competed with several of these schools.
RODEO CLUB

The annual bronc riding...

and barrel racing...

and of course, braham bull riding...
The 1970 session of the Montana Model United Nations marked the fifth consecutive year that the organization has been operating. Twenty-five high schools and seventy-four nations were represented at this year's session. The purpose of the organization is to provide a more international learning experience than the student has previously had. This year’s MUN officers were John Angwin, president, Frank Spencer, acting president and Wendell Guthrie, secretary general.
The Newman Club is the Catholic organization on campus and is very active. Each quarter, this year, the club conducted a Search Program. Each Program lasted a week and both Catholics and non-Catholics were invited to participate. Fall quarter their main activity was the state convention, during winter quarter it was the Mardi Gras and during spring quarter a family picnic was planned.
First row, (seated) from left: William Tiritilli, secretary, Jerry Begg, president, Dr. Ed Gill, advisor, Bob Lockmiller, treasurer, Eldon Thorsen, vice-president. SIGMA DELTA CHI
MEN'S JOURNALISM HONORARY
This year, the Panhellenic Council was concerned mainly with rush in the sororities on the UM campus and its faults. In order to do this, the officers attended a Greek Convention in Oregon in February. Bringing back several ideas, they then set up a workshop including the seven sororities on campus. This workshop was directed at changing next fall’s rush so as to provide a more amiable atmosphere for those girls seeking a Greek life. A general meeting of all sorority members was held at the beginning of the workshop. The girls then went to group meetings to discuss the problems at hand. Due to the workshop, several changes were made concerning future rushing, for instance, the length of rush week and procedure.
INTER-FRATERNITY COUNCIL

Inter-Fraternity Council is a group consisting of men representing the different fraternities on campus. Like the Panhellenic Council, to promote "Greek life", they did several things. The main points were Greek Week and different meetings and discussions on how to improve the rushing attitudes in the fraternities.

SPURS AND BEAR PAWS

SOPHOMORE HONORARIES

HUI—O
HAWAI'I
The executive board held its meetings in the Golden Oak room of the UC. President Mazurek and the commissioners of various ASUM committees discussed programs for their groups.
Budget and finance, the committee which acts as treasury department for ASUM, allocated funds for several new adjustments. They approved and appropriated funds for a new sound system in the Adams fieldhouse and a Selective Service Information Center on campus. They also investigated Kaimin coverage of campus events and considered expanding the Establishment, a daily news sheet published by the U of M Information Services.
The budget committee discusses the day's agenda and what it will entail.

PROGRAM COUNCIL

Striving for support, a request for 1970-71 budget of $90,000 dollars marked a sharp change from the present $40,000 budget. The program council having a budget deficit during the year, felt more money was necessary. The committee brought in a variety of performances which included Neil Diamond Ferrante and Teicher, the National Shakespeare Company and Three Dog Night. Nearly all were well received.
The program council introduced to the U of M campus this year programs ranging from ecology to hard rock.
Central Board underwent many changes this year, the most important being that of the change in CB president and vice-president. Joe Mazecek and Gary Thorngerson took the places of Ben Briscoe and Bruce Gray, consecutively, after the former CB officers were killed in a tragic automobile accident. Other changes were revisions in the ASUM constitution, approval of a Selective Service information center on the UM campus and the support of a World Peace Day.
Pub board is the advisory committee for several organizations. It checks and reviews the policies of the Kaimin, the Sentinel, the Book, the Garret and the M book. The staffs on each of these must, in turn, also be approved by the publications board. This year they determined new policies for the Garret, the Book and the Kaimin and directed a survey on most of the U of M publications.
The athletics board of this year made several changes. The most important of these being, the Faculty Athletic Committee recommended to President Pantzer that control of student fees be transferred to Athletics Commission of Central Board. This would give the students complete control of the $8 student fee allocated for the athletic fund. Both Jack Swarthout, committee advisor and UM football coach, and Mark Mertens, ASUM business manager criticized the motion at that time.
One of the varied activities of Academic Affairs this year was a poll questioning a recommendation to end the foreign language requirement at UM. The group also suggested a change in group requirements and proposed reinstating final week.
The Student Facilities Commission determined several issues this year. The different activities included reviewing petitions from Craig, Duniway, and Elrod Halls, distributing informational pamphlets at the UM Health Center and approving a bill to exclude high school students from the University Center.
FORESTRY

The University of Montana School of Forestry was founded in 1913, being one of the original group accredited by the Society of American Foresters. The occupation of forestry presents the professional management of natural resources, especially forests and forest lands. The students of this curriculum aim for that occupation and those related to it.

FACULTY

Dean Arnold Bolle
The initiation of the forester is a yearly event that precedes all other annual activities. Before initiation, those wishing to join the club are briefed by the dean on the history of the club and the school. Then the initiation takes place, consisting of a "songfest", pledging their honor to Bertha, their mascot, and a mountain trek. The students then become full-fledged members.
Three initiates take time out.

Dean Bolle speaks to students.

Initiates complete an initiation requirement with serenading.

ROBERT PANTZER
PRESIDENT OF THE
UNIVERSITY OF MONTANA
Pantzer says U.S. must get out of war

By RALPH WANAMAKER
Montana Kalmin Staff Writer

President Robert T. Pantzer urged President Nixon in a telegram yesterday to "get out of war, and it must be at the earliest possible moment."

Mr. Pantzer's statement was interrupted by a one-minute standing ovation from the 2,000 persons attending the memorial service for four Kent State University students killed in demonstrations on that campus Monday. President Pantzer told the Main Hall audience he is "experiencing utter frustration over the continuation and escalation of the war."

Mr. Pantzer said repressive actions resulting from violence threaten a college's freedom.

"Let us not sacrifice the strength and freedom of this University for a momentary satisfaction of our frustrations," he said.

A boycott of classes was advocated by Ronald Wheeler, graduate student in zoology.

Wheeler said the strike would mobilize students into a single voice.

Students can "join their brothers and sisters in a nonviolent manner," he said.

Stressing the need for nonviolent action, Wheeler said the insanity that has happened on other campuses does not have to spread to the UM campus.

Wheeler said protesters can "educate" non-boycotting students by picketing buildings and by "rapping with people" going to classes.

The Rev. Jon Nelson, campus Lutheran pastor, urged listeners to commit themselves to be together on the strike — to express disappointment and distress.

At the Rev. Nelson's urging, members of the audience joined hands in what he termed a symbol of solidarity.

He also urged students to be committed to the survival of the human race, each other and to hope.

Arnold Silverman, professor of geology, said Kent State students are dead for protesting what too few have protested.

"My Lai has come to the American campus," Mr. Silverman said. "We know what the Asian war is about now, in terms of blood as well as pictures and sound."

Mr. Silverman said, "I will not turn my count."

FACULTY SENATE MEETS
DURING STRIKE
Cogswell, Smith to Retire in June

Fedore Chosen as UM Dean

Dr. Robert R. Fedore of Michigan State University will replace Andrew C. Cogswell as UM dean of students July 1, 1970, upon the latter's retirement.

Dr. Fedore, 44, a native of Jackson, Mich., has been associate dean of students at Michigan State, East Lansing since 1969.

Plenty to Do

"I'm leaving no scarcity of problems to my successor, Dr. Bob Fedore," Dean Cogswell said recently as he reflected on his 39 years at UM.

"Some of the problems I leave are big and some of them are small," he said. "They vary from drugs in our society, particularly among youth, to how to dress women cheerleaders so they won't be confused with other coeds now that the miniskirt is in vogue."

As he views the current scene, the dean said, he sometimes feels that this is where he "came in."

"I took over this deaning job some 14 years ago during a period of furor over drinking on campus," he said. "I'm leaving it during an equally great furor over drugs. In the meantime, I've seen some 28,000 students come and go, the overwhelming majority of whom turned out to be fine citizens, a great many of them outstanding leaders.

"So I hope you'll pardon my faith Woolston Named Registrar

Wayne C. Woolston, director of admissions and records at the University of Colorado, Colorado Springs Center, will become registrar at the University of Montana on July 1, President Robert T. Pantzer has announced.

Woolston, 38, will succeed Leo Smith.

A native of Inglewood, Calif., he has been director of admissions and records at the UC Colorado Springs Center since 1965.

Things Have Changed

When UM Registrar Leo Smith came to UM in 1946, he said, things were generally being run in the Registrar's Office in a "horse-and-buggy style."

"But I started right out making some changes," he said, and 24 years later, when Smith retires this June, he will have watched the University enrollment grow from 1,113 in the fall of 1945 to 8,032 in Fall Quarter of 1969.

Smith recalled that in the fall of 1946 a landslide of returning veterans brought the enrollment to a high of 3,229—including more than 2,000 veterans—and he said the situation was "hectic." "We just weren't ready for them all," he said, noting that the Men's Gymnasium was filled with bunks for the men since the campus was geared to accommodate a maximum of 2,200 students.
FACULTY
Chemistry is a basic or "pure" science, chemists have a major part in achievements of science and industry since every facet of your life—from food and buildings to fuel and paper. In addition, chemistry is the sophisticated studies as genetics and molecular biology. It deals with substances—their composition, structures and the laws that govern their changes. A chemist is concerned with substances containing carbon (from living organisms) and with synthetics. An anthropologist interested in the culture. He studies the cultures of contemporary society for relationships between such cultures. With the understanding of the world and the influence of their language.

An anthropologist interested in the culture. He studies the cultures of contemporary society, both "primitive" and "civilized", for relationships between such cultures and the material objects made by the people, their political and religious pursuits, child-rearing, marriage practices, social rules by which members of one culture act with regard to each other, and the knowledge of the world are interconnected. The regularities in cultures are discussed in terms of the influence of language on culture and the influence of culture on language.

A linguist is concerned with the relationships between such cultures and their understanding of the world. An anthropologist interested in the culture.

Choose a chemistry career, you probably will work for a company, government laboratory or educational institution. You may perform research or develop new products or improve existing products. You will be needed to teach in high schools and in addition, you may work with testing, analysis and products. There is a continuing demand for chemists, particularly those with advanced degrees, salaries and opportunities are excellent.
The study of foreign languages—an expanding necessity in a contracting world.

The academic departments included the following: accounting and finance, aerospace studies, anthropology, art, botany, business education and office administration, chemistry, computer science, drama, economics, English, foreign languages, geography, geology, health and physical education, history, home economics, management, mathematics, microbiology, military science, music, philosophy, physics and astronomy, political science, psychology, religious studies, sociology and social welfare, speech communications, speech pathology and audiology, wildlife research, and zoology. The various schools and colleges were: college of arts and sciences, school of business administration, school of education, school of fine arts, school of forestry, school of journalism, school of law, school of pharmacy.
Like schools elsewhere, the University has had its experience with the drug problem. Is the University, as a teacher, trying to do anything about it? The answer is "yes". We interviewed Dr. Victor H. Duke, Associate Professor of Pharmacy, and here are some of the highlights.

Sentinel: About drug abuse--just what has your program been doing?

Dr. Duke: At the academic level, we have offered one course. We started out with General 110 as a two hour offering last fall. Next fall this will be expanded to three hours. This is some indication of the importance which we attach to the subject, as well as evidence of the interest that students have in the problem, from the hip to the incoming freshman.

Sentinel: It's our understanding that the program was also active at the community level.

Dr. Duke: Yes. Dr. Zimmerman conducted extension courses at St. Ignatius; Dean Van Horn was similarly occupied at Anaconda, Helena, Butte, and Kalispell. These were courses offering two credits, and covering the various aspects of treatment, kinds of drugs, and the clinical people involved in treatment.

Sentinel: How about summer school?

Dr. Duke: Well, we've been at that angle for two summers and will go into our third season in 1970. These courses are primarily for teachers and educators.

Sentinel: What do you think was the effect of all this?

Dr. Duke: I think we got across the idea that we were there to give information - not to moralize.

Sentinel: Where does the program go from here?

Dr. Duke: Laboratory programs are being set up for more research on the behavioral drugs -- the amphetamines, alcohol etc.
Winter and spring quarters, 1969, marked the beginning of a new program for teacher-in-training attending the University of Montana. This plan grew out of a Title I project to help children with learning difficulties.

This program was created to help 220 elementary pupils reach a level of success that they had not previously enjoyed. One facet of the success-oriented plan was to give each pupil a part-time tutor. Since the grant could not cover the cost for paid tutors, University students were asked if they would like to participate.

The results of this program proved to be extremely valuable to the individual pupils and to the teachers-in-training. The program has now become a permanent part of the University School of Education and one can now earn credit under 201 in this teaching lab.
Law students have the opportunity to participate in the Montana Defender Project. Junior and senior law students assist lawyers assigned to defend indigents, examine applications for release from inmates of the state penitentiary, and assist Indians from Montana reservations. Under a Ford Foundation grant, students have been able to interview, process petitions and help develop cases.

Ben Briscoe, Bruce Gray Killed In Car Wreck Near Drummond

Ben Briscoe

Briscoe was born July 7, 1948, in Helena, the son of Mr. and Mrs. Benjamin Banks Briscoe II.

He moved to Great Falls with his parents and graduated from Great Falls High School in 1966.

Briscoe, a senior in history and political science, was active in student government throughout his four years at the University.

A member of Sigma Phi Epsilon fraternity, he served student government as Leadership Camp chairman, Missoula and Montana Affairs Commissioner, and finally student body president.

A former Bear Paw, Briscoe was a 1969 state legislative intern and was active in Silent Sentinel, the Missoula Vietnam Moratorium Committee and 19-Year Vote Committee this year.

He was a member of Air Force ROTC and Arnold Air Society.

He is survived by his parents.

Bruce Gray

Gray was born Feb. 24, 1948, in Great Falls, a son of Mr. and Mrs. Orville Gray.

He was a 1966 Great Falls High School graduate.

Gray, a senior in business administration, was a member of Sigma Nu fraternity and a former Bear Paw.

He was Freshman Camp counselor and served as Traditions Board Commissioner his junior year. He was an active supporter of the 19-year vote.

Survivors are his parents and two brothers, Jeffrey, at the family home; and Randall, UM freshman and Central Board delegate.

Gray's parents have requested that memorials be made to the UM scholarship fund.

Funerals to Be In Great Falls On Tuesday

Funeral services will be Tuesday for Ben Briscoe and Bruce Gray, ASUM president and vice president, who were killed yesterday in a car accident on Highway 10 about five miles west of Drummond.

Briscoe, Gray and Keith Strong, chairman of the ASUM 19-year-old voting age committee, were traveling west about 2:30 p.m. yesterday when their state-owned car struck a truck-trailer heading east.

Mertens Is President

Mark Mertens, ASUM business manager, became president under succession laws of the present ASUM constitution.

Mertens said, "I will be acting president until the government gets on its feet and gets rolling again."

He said he would not comment until later this week on whether he would remain as ASUM president.

Services for Briscoe will be at 11 a.m. Tuesday at Great Falls Episcopal Church. Gray's services are scheduled for 1:30 p.m. at the Great Falls First Methodist Church.

The three student leaders were returning from Butte where they (Continued on Page 2)
Memorial services for Ben Briscoe and Bruce Gray will begin at 7:30 tonight in the University Theater.

Briscoe, ASUM president, and Gray, ASUM vice president, died Saturday in a car-truck crash near Drummond. Both were from Great Falls.

The Main Hall carillon will begin ringing at 7:15 p.m. The bells also will be played following the 50-minute service.

The Rev. William Kliber, campus Methodist pastor, is in charge of the services. Other campus pastors, the Rev. David Van Dyck of the University Campus Christian Fellowship and the Rev. Jon Nelson of the Lutheran Center, will participate with Mr. Kliber in the services.

During the services, Andrew C. Cogswell, dean of students, will read a statement on behalf of the University. Tributes to the student leaders will be read by UM students Keith Strong and Randy Gray.

Strong, a junior who was a passenger in the car at the time of the accident, will read the tribute to Briscoe. Randy Gray, a freshman, will read the tribute to his brother.

Music for the services will be provided by the UM choir, directed by Joseph Mussulman, UM associate professor of music. Ushers will be members of Mortar Board, senior women's honorary, and Silent Sentinel, senior men's honorary.

After the services in the University Theater, Briscoe's Sigma Phi Epsilon fraternity brothers and Gray's Sigma Nu fraternity brothers will form a cross in front of Main Hall. Candles will be lit and the Lord's Prayer will be said.

Funeral services for the two ASUM leaders were yesterday in Great Falls.

The service for Briscoe was at the Church of the Incarnation. Burial was in the Highland Cemetery, south of Great Falls.

Gray's funeral was in the First Methodist Church. Cremation followed the service.

ORDER OF EXERCISES

PRELUDE

John Ellis, Organist

PROCESSIONAL

Marshals, the Colors, Candidates for Degrees, the Faculty,
Members of the Governing Boards, Guests of Honor,
the President

PRESENTATION OF COLORS

NATIONAL ANTHEM

The Star Spangled Banner
O, say! can you see by the dawn’s early light,
What so proudly we hailed at the twilight’s last gleaming,
Whose broad stripes and bright stars, through the perilous fight
O’er the ramparts we watched, were so gallantly streaming?
And the rockets’ red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there.
O, say, does that Star Spangled Banner yet wave
O’er the land of the free and the home of the brave?

INVOCATION

Father George Ferguson

MUSIC

Psalm 19
Benedetto Marcello
Brass and Organ

CONFERRING OF DEGREES

Presentation of Degrees
Conferring of Degrees

The President

CHARGE TO THE CLASS

President Robert T. Pantzer

SONG

Montana, My Montana
Our chosen state, all hail to thee,
Montana, my Montana!
Thou hast thy portion with the free,
Montana, my Montana!
From shore to shore, from sea to sea
Oh, may thy name full honored be
Symbol of strength and loyalty
Montana, my Montana!

BENEDICTION

Reverend William Kliber

RECESSIONAL

Trumpet Tune and Voluntary
Jeremiah Clark

The audience is requested to remain standing while the procession passes.

the "cycling sigs" of last year appeared in the intramural season with an outstanding football record and the opportunity to face an opposing team in the final intramural playoff game. Although their cycling records of last year might have helped them all get in shape for their season of play, it was still their ability on the field that showed in the final analysis.

at left, timm fredrickson attempts a field goal while his teammates are ready for any substitution which might need to take place or moral encouragement which might have also been a winning factor in their success this year.

although the "sigs" could not use their varsity swimmer kurt von tagen in their attempts at the intramural swim meet, they once again use the "jocs" of their house to compete in the intramural swim meet pictured at right. In this event, the 100 meter backstroke, they gained a number of their points by placing both second and third. As in intramural sports, a team effort was displayed which gave both unity and spirit to their house even though in the last they may not have won - the all out effort in these sports was an important achievement to the men of sigma chi.

New AOpi House Becomes A Home
FOOTBALL

The work for money to go to school is not only with the brain but also that physical labor which a player must go through every day of the football season. Only being on the field and feeling the crash of the tackle against your stomach or running down the field with the fear of two massive tackles at your back will attest to the fact that it takes a lot of work, hours of it, to earn enough money so that you may go to classes when not on the field.

Combined with the new sound system purchased by ASUM, performances by Neil Diamond and Jennifer as well as many other top name performers brought a wide variety of entertainment to the students. In the informal atmosphere of the Field House, these performances seemed to be close to the audience which typically provided Montana hospitality.
A winning team always brings a good audience and with the rumor that the Grizzlies were not the team of last year combined with the winning record in preseason games brought the crowd out to fill the stands to capacity. Those that said it could never be done were fooled game after game after game. A feeling of unreality, combined with widespread enthusiasm for the team's first Big Sky Conference, was felt throughout the campus.
Entertainment during the halftime performances was provided by a much improved band. The tone of the winning spirit seemed to flow from all the instruments and the marching was no longer the trudge of last year but the renewed spirit of performing for a new type of audience. During the game with South Dakota, the band was not only the only element giving the crowd their spirited abilities, but three of the football team members gave a dance of their own in an impromptu expression of high spirits felt by all members of the team. When these players trooped onto the field, the audience felt like they were sharing the high feelings of the team and not simply a separate entity.
On a campus which is as varied as the University of Montana it should be the job of Program Council to provide a wide variety of entertainment to meet the needs of the students. This year it was done better than it has ever been done in the past.
Oglesby says political might lies in hands of few persons

By GARY GUCCIONE  
Montana Kaimin Associate Editor

U. S. political power lies in the hands of a few while most Americans are powerless, Carl Oglesby said last night.

Mr. Oglesby, an organizer and former president of Students for a Democratic Society, told about 700 persons in the UC Ballroom that the American power structure and its bureaucratic inefficiency helped spark the left-wing movement.

Mr. Oglesby said today's young generation has been searching, as have past generations, for the answer to America's true political meaning.

"When these answers did not begin to materialize in the hearts of the American experience, only then did people begin to have second thoughts driven to them— as if it were on this country's mind to produce a generation of crazy anarchists, commies, reds, pinkos, queers, faggots, knock-down loopy hippies, suicides, whatever," he said.

If it is America's interest to "do what it does to the black people, the poor people and the college people — and everybody," then it is time for a change in America, he said.

Mr. Oglesby, citing a bombing incident in New York in which one of his friends was killed, termed the deaths suicidal, saying, "they were dead because the institutions in this country gave them no reason to believe they could live. It would have been the same thing to ask them to live with their nightmares."

American revolutionaries understand that America has "no means for her own transformation," he said. The manner in which political leaders treat and suppress the movement come in different forms, but the result is always a disastrous one for the movement, he said.

"I think we're riding on the edge of disaster, which can be attributed to something wholly new," he said.

"We have been sleeping and dreaming for a long time and it is necessary to come awake," he said. "We have been intolerable to other peoples and we have been intolerable to ourselves."

Mr. Oglesby gave an account of his involvement in the Chicago 7 trial. Judge Julius Hoffman did what he could, along with prosecuting attorneys, to muffle his testimony in the case, Mr. Oglesby said.

Senator Kennedy
to lecture tonight

Sen. Edward M. Kennedy, D-Mass., will deliver the third address in the Mansfield Lecture Series, tonight at 8 in the Field House. His topic will be "U.S. Relations with Latin America."

The senator will also be keynote speaker for the Kyi-Yo Indian Youth Conference tomorrow at 9 a.m. in the Field House. Both lectures are open to the public without charge.

Other meetings with Sen. Kennedy on campus were still unconfirmed late yesterday. UM administrative spokesmen told the Montana Kaimin that the senator's schedule will depend on the time of his arrival in Missoula by private plane today.

Leo B. Lott, political science chairman, said yesterday Sen. Kennedy has requested a joint meeting with several political science classes. A question-and-answer session is tentatively scheduled today at 2:15 in LA11.

Political science classes will have priority, but other students may attend, Mr. Lott said.

Sen. Kennedy also is expected to meet with representatives of Indian Low Income Group for Human Treatment (Indian LIGHT) sometime today for a discussion of Indian problems and programs. Earlier, LIGHT members announced plans to picket the senator's speeches because they understood he would not have time to meet with them.

The senator announced Wednesday he would be able to meet with the group.

The senator's schedule tomorrow includes a breakfast meeting with ASUM officers at 8 a.m. in the UC.
Senator Defends Nixon's Policies

President Nixon's policies must be supported in order to stop dividing the American people and end the Vietnam war, Sen. Strom Thurmond said last night. He was interrupted in his speech by demonstrations and rattle guns and the sound of the national anthem of the Asian nation.

"Something has got to give," he said. "It is not working. It is time to come to a successful resolution of this problem."

'Vietnam's only hope today is to fight,' he said. "We have never lost control of the situation there."

American public opinion is divided, he said. "I don't think there is any way that we can win Vietnam."

In a speech in the Senate late last night, he said, "I think the American people have never been more willing to accept the Vietnam policy."

Mr. Thurmond said the war would be solved if the United States would peacefully withdraw from the war. "There is no way that we can win Vietnam," he said.

"I think there is no way that we can win Vietnam," he said. "But I think it is time for us to make some sort of peace settlement there."

"The American people are the ones who will have to decide whether we continue to fight," he said. "And I think they will decide that we should not fight."

x-justice links unrest

by JEFF HERMAN
Anatna Kaimin Staff Writer

origin of America's social largely can be attributed to monumental Brown vs. the T-Board of Education decision 4, Abe Fortas said last night. The Supreme Court Justice speaking before about 1,500 people at the UC ballroom said a could now attack the old society because the 1954 "separate-but-equal doctrine rendered by the Court in the Plessy vs. Southern case of 1896." The ex-justice chided his generation because "we regard today's college-age people as being the same kind as we were at their age." He said today's young have had much more exposure and experienced through "the grave blessings of that grave invention, television." Mr. Fortas said students today demand more of their life and are capable of doing more than those of past generation.

Civil disobedience has a place in America, but violence cannot achieve any goals, he said. He termed violence "counter-productive."

The former justice said he believes social revolution could be dying out because of violence and lawlessness. He said a "visible hand of reaction" is linking the civil unrest and disorders to the wave of crime in the country.

"There is no need for young people to search for a mission, Mr. Fortas said. "The mission is here. The challenge is here."

In a question and answer session following his speech, Mr. Fortas said he was "distressed and disturbed" over proceedings at the Chicago Seven conspiracy trial. He said when "you connect a lot of people with a particular set" it has political overtones. He sees the "conspiracy doctrine" as a dangerous and incendiary procedure. He termed the recent no-knock law concerning drug control passed by the Senate as "very dangerous." He said when "you connect a lot of people with a particular set" it has political overtones. He sees the "conspiracy doctrine" as a dangerous and incendiary procedure.

WRESTLING

Despite the inadequate facilities, the wrestlers did well this year with the help of hard work by all and the undefeated Larry Miller who was picked as one of the top Big Sky athletes. They came in fourth in the Big Sky Tournament.

Harvard Professor Predicts Future Legalization of Pot

By GARY GUCCIONE

Montana Kalman Staff Writer

Marijuana will probably be legalized within ten years, Theodore X. Barber, professor of psychology at Harvard, said last night.

"Moreover," Mr. Barber said, "the handling of the marijuana issue is more important than the question of its legality.

"What we should do concerning its use is not the question," Mr. Barber told the Harvard Student Senate Thursday night in the University Theatre. "The question is how can we get people to use these drugs properly?"

Whether marijuana leads to heroin and other hard narcotics "depends on the situation in which the marijuana user finds himself," he said.

Employers and other regulatory agencies can result from prolonged use of the drug in large doses, he said.

Harvard Professor Predicts Future Legalization of Pot

"People use marijuana for many of the same reasons they use pot," Mr. Barber said. "It is used today in the U.S. in group activities, as an insurance, as an aid in 70 years to the efficiency of the drug.

"We can all see what marijuana will become," he added.

"The question is how can we get people to use these drugs properly?"

Whether marijuana leads to heroin and other hard narcotics "depends on the situation in which the marijuana user finds himself," he said.

Employers and other regulatory agencies can result from prolonged use of the drug in large doses, he said.

Bennett says man has failed to learn

The educational system has failed to teach men how to live with learning, Meridian Bennett, free-lance writer and urban consultant, said last night in the ninth lecture of the Man's Environmental Challenge series.

Mr. Bennett said the motivation to learn is eliminated when students are asked to discuss problems as defined by established intellectuals.

When students define the problems themselves, they will become motivated and creative and learn to know their internal environment, he said.

He defined the internal environment as values, which dictate how a person lives in his external environment.

Mr. Bennett, who spent several years in the Peace Corps, said he found that in countries where man's culture is considered to be backward, the inhabitants do not abuse natural resources.

Natives in these countries act as if they can feel the fall of a tree or the erosion of the soil, he said, because they understand their place in the environment.

"A sense of a person's values is realized before they are under-
activities
BASKETBALL

It was a bad year for the basketball team, the spirit of the winning football season had not died and was reflected in the faces of the cheerleaders. The cheerleaders were not leading the apathetic crowds of last year but a completely new group which had new hopes for victorious Grizzlies. With the withdrawal of three of the team's best players, the hopes of the team dwindled and resulted in the season which was poor as a result. The team did, however, beat the Bobcats in two out of three of the games which were played with them.

HOME COMING

Clarene Hornung, a sophomore in Spanish and home economics, was crowned 1969 UM Homecoming Queen as flares were lit outlining the "M" on Mount Sentinel. Eight high school bands, the UM band and floats from living groups and campus organizations were in the UM homecoming parade. The winning float showed a buzz saw chopping up an Idaho Bengal. It was sponsored by Sigma Phi Epsilon and Delta Delta Delta. Phi Delta Theta and Alpha Omicron Pi won second place and Phi Sigma Kappa, Alpha Lambda Delta, and Synadelphic won third. Recipients of the Distinguished Service Awards for 1969 were William J. Gallagher, Missoula business man, 1925 Business Administration graduate of the University and Boynton G. Paige, Philipsburg businessman, 1927 Business Administration graduate; Merritt N. Warden, Kalispell lawyer, 1939 Business Administration and Law School graduate; and Arnold S. Gillette, a professor at the University of Iowa who was graduated from the UM fine arts school in 1928.
Homecoming was not just a parade down Higgins or the tissue paper floats that are prevalent in most parades, but really involved much more student participation than it has in most other years. Included were student displays to try and involve the general public in affairs which are the concern of all involved students. The game following the parade also involved some student participation to try and keep warm while the players did not have as hard a time as the students. This game was also the first time this year that the force of Missoula's finest did not search for their liquor supply needs.
The excitement of the annual confrontation of the Grizzlies and the Montana State University Bobcats was as exciting this year as it has been in the past. MSU was not enjoying a good football season. The Bobcats were 1-8 going into the annual game between Montana's two major colleges. In fact the only thing that could save a disaster for the Bozeman school was a win over the Grizzlies (Montana State was a conference co-football champion in 1968). Montana ran the clock out and ended a seven year Bobcat reign and the team went on to demolish the remaining two opponents. The score, which held the fans on the edge of their seats throughout the game, ended in a close 7 to 6.

TENNIS

Tennis has become more popular this year and has resulted in a good team as well as a lot more intramural and individual participation. The tennis courts have been enlarged as a result of increased demand and still will probably be inadequate to accommodate all those who want to play in the spring evenings after dinner. The UM tennis team retired from the courts of the Big Sky Conference Tournament in Moscow, Idaho, last weekend with third place.

DANCES

Dances were poorly attended at the University this year and not as frequently held as they have been in the past. The stress on the dances was on the unusual and the dances of former years such as the Sadie Hawkins and Registration dance, were changed to include an attempt to hold an all night dance and many other unusual, unordinary social gatherings.
Part of the enjoyment of going to a school in the West is the participation in the culture of the country which all of us see so much of in the movies but becomes a reality in the Big Sky Country. The rodeo at the University saw capacity crowds both of the days that it was held. It was not unusual to see everyone in the crowd dressed in a traditional western outfit and completely enjoying the excitement of the old west.

The swimming team upheld its record of winning the Big Sky Championship again this year with only one loss during the season. The Montana AAU championship held here was taken by the UM team. Outstanding swimmers Kurt von Tagen and Dave Sarard went to the NCAA meet in Salt Lake City.
Although the golf team was helped by the scoring of Rick Carpenter, Big Sky medalist for the second straight year, it was not enough to pull the UM golfers from the third-place spot as Weber finished with a team total of 1159. The University of Idaho finished second with 1164 and UM finished 10 strokes behind Idaho.
The Cross Country team, with the superior coaching of Harley Lewis, took first place in the Big Sky Conference held in Moscow, Idaho. There were also two outstanding representatives to the NCAA meet held in New York City. Wade Jacobson placed 46th among all of the entries which were entered from all over the nation.
An all out effort by the Music Department is given each year in the form of Showtime. It included performances by the Jazz Workshop and the Jubileers as well as other outstanding performances by music students. The benefits from this event went to supply scholarships to music students and this combined with excellent performances made the price of the ticket worth while.
The Grizzlies finished the season with a 15-17 record despite having seven regulars who hit above the .300 mark. The highlight of the season was the defeat of present Big Sky Champions in the last game of the season. Roger Nielson, a senior political science major from Ronan, was named the most valuable player on the Grizzly baseball squad for the 1970 season. Nielson, according to Head Coach Lem Elway, received the allocate for his superior defensive talent and handling of pitchers. Elway said that the Grizzly pitching, although weak, could have been a lot worse without Nielson catching.
Grizzly track coach Harley Lewis attributed the UM track setback this season to bad luck as Idaho State took the Big Sky Conference track crown with UM coming in second. UM freshman George Cook took first as he set a stadium record in the steeplechase with a time of 9:26.5. Roy Robinson broke the stadium records and the Big Sky record in the high hurdles with a time of 14.0. Robinson also won the 100 with a time of 9.5. Wade Jacobsen won the three mile run in 14:34.2 over teammate Cook.
