The Associated Students of The University of Montana
Resolution Regarding Financial Aid
April 24, 2013
SB80-12/13
Authored by: Sean Schilke, ASUM Senator; Amanda Stovall, Member
Sponsored by: Bryn Hagfors, ASUM Vice President

Whereas, The Associated Students of The University of Montana (ASUM) have a vested
interest in student satisfaction, retention and graduation;

Whereas, the Financial Aid office lacks the current resources and staff to adequately meet
the needs of Native American students;

Whereas, there are more than 750 Native American students on campus any given year;

Whereas, Native American students often have a more difficult time with the financial
aid process than other students because of additional regulations unique to the population;

Whereas, Native American students may have a tuition waiver;

Whereas, Native American students may have a Higher Education scholarship;

Whereas, Native American students are more likely to be selected for verification by the
Financial Aid office due to intrinsic characteristics;

Whereas, Native American students that do not finalize before the third week of classes
may do so due to a lack of adequate assistance and resources in the Financial Aid office;

Whereas, students need to finalize by the third week of classes to be counted by the
Registrar's Office, a benefit to the University, and this position will aid students finalizing
their bills;

Whereas, the University will realize a positive financial benefit if, due to this position, it
retains a dozen Native American students that would have otherwise dropped out;

Whereas, other departments and subgroups of students on campus have their own
financial aid adviser and point person in the Financial Aid office;

Whereas, some Native American students have had to completely restart the Financial
Aid process well into the semester;

Whereas, the stress of not having one’s Financial Aid situation settled several weeks after
a semester begins directly affects retention;
Whereas, students who have not yet resolved their Financial Aid often have to forgo their educational needs such as buying books or completing assignments to look after basic human needs such as finding adequate food to eat or adequate housing; 

Whereas, the retention and graduation rate for Native American students is consistently and significantly lower than for other students; 

Therefore, Let It Be Resolved, that the ASUM Senate urges the administration of The University of Montana to create and fund a Native American Financial Aid Specialist position in the Financial Aid office which will be fluent in the financial aid system for Native American Students at the University of Montana: especially with the particulars of the higher education scholarships for the Assiniboine, Blackfeet, Chippewa, Cree, Crow, Gros Ventres, Kootenai, Little Shell, Northern Cheyenne, Pend d'Oreille, Salish, and Sioux Tribes; knowledge of the Native American fee waiver and the history thereof; verification procedures; Financial Aid Office Appeals; and act as a liaison and advocate for Native American Students. 

Therefore, Let It Be Ordered, that a copy of this resolution shall be sent to President Engstrom, Provost Brown, Vice President for Student Affairs Branch, and Financial Aid Director McGowan. 

Passed by Committee: _____________________________, 2013 

Passed by ASUM Senate: __________________________, 2013
