MSU FORESTRY APPOINTMENTS ANNOUNCED

Neil W. Hosley and Peter J. Dyson have been appointed to the faculty of the Montana State University School of Forestry, and James L. Faurot has returned to duty after a year's leave, President Carl McFarland announced.

Dr. Hosley joins the staff as an assistant professor to teach the classes of Arnold W. Bolle, who is on leave this year to complete work for a doctorate at Harvard University. For the past six years Dr. Hosley was dean of the university at the University of Alaska. He has taught at Harvard and at the University of Connecticut and served as a biologist with the U. S. Fish and Wildlife Service. He received a B. S. from Syracuse University, a master of forestry degree from Harvard, and a Ph.D. from the University of Michigan.

Dyson will be an instructor in forest insect control courses and will assist with upper-class instruction in mensuration, advanced forest soils, and silviculture. He was granted an M. S. degree from MSU in June 1957. He has worked for the Dept. of Agriculture, Ontario, Canada, in research on forest insects and on pollination problems, and also for the U. S. Forest Service's Rocky Mountain Insect Laboratory as a forest control specialist.

Faurot, assistant professor of forestry, spent the past year at the University of Washington, where he completed work for the master's degree and began work on the doctor's degree.
