RESOLUTION TO OBJECT TO COMMISSIONER BAKER’S COMMENTS
ON STUDENTS TAKING REMEDIAL COURSES

WHEREAS: the Montana University System exists to serve those who wish to pursue a college education, and;

WHEREAS: one in five students at The University of Montana take at least one remedial course during the their academic program, and;

WHEREAS: remedial courses are primarily taken by students who have not been in school for several years or who did not receive adequate training in certain subjects in their secondary education, and;

WHEREAS: students who have taken remedial courses do extremely well in more advanced courses following their remedial courses, and;

WHEREAS: students who take remedial courses do not necessarily lack the intellectual ability to be successful undergraduates, as stated by the Commissioner of Higher Education, and;

WHEREAS: the comments of the Commissioner of Higher Education are maligning to approximately 20% of the student body of The University of Montana, many of whom excel during their academic careers and receive their degrees,

THEREFORE LET IT BE RESOLVED that the ASUM Senate objects to the Commissioner of Higher Education’s comments that "The elimination of remedial education does not alter the fact that students are admitted to the Montana University System whose subsequent academic record demonstrates that they lacked some critically necessary skills and the intellectual ability to be successful undergraduate students."

LET IT FURTHER BE RESOLVED that the ASUM Senate supports and encourages all students in their quest for education, does not feel that the taking of remedial courses is an indication of intellectual ability, and supports the offering of remedial courses at The University of Montana.

Passed 11-15-95
RESOLUTION ON PHASE II RECOMMENDATIONS

WHEREAS: The 144 credit cap is unreasonable due to unforeseen circumstances, such as changing majors, withdrawal due to personal reasons and poor advising, and

WHEREAS: The proposed 144 credit cap does not allow for students to double major or minor, and

WHEREAS: By limiting accessibility to affordable education, we will be denying Montana taxpayers the right to retrain, should their career field so require, and also limit the ability to continue with a life-long educational pursuit, and

WHEREAS: By making the proposed credit cap retroactive, students, who are also taxpayers, are being penalized for situations which they could not have foreseen four year prior, and

WHEREAS: By implementing Phase II suggestions by Fall of 1996, students are being expected to make the right class and career decisions without being afforded better advising, and

WHEREAS: Due to the individual university demographics, elimination or added cost for remedial education classes will adversely affect those students who have been contributing taxpayers in a career field but are returning to higher education later in life, and

WHEREAS: Instituting these programs before a comprehensive agreement is reached between the Office of Public Instruction and the Montana high schools regarding high school graduation requirements, we believe that enacting such changes would be detrimental to the individual students and the Montana University System in that students graduating with high school diplomas may not have the knowledge or training to take on college course work.

THEREFORE LET IT BE RESOLVED: That the Associated Students of The University of Montana-Missoula support the goals of Phase II to streamline a four-year degree in which students can get in, get out, pay the way and get a job. However, the current Phase II recommendations would impede the ability of a student to receive a well-rounded, affordable and marketable education. Furthermore, we do not support the proposed credit cap of 144, nor do we support any credit cap that is retroactive. Recognizing the need to work together in solving the long term problem, we would support a credit cap of 156 for incoming students Fall 1996.

LET IT BE FURTHER RESOLVED: That ASUM does not support the elimination of state support for remedial classes, nor does ASUM endorse eliminating remedial classes from the Montana University System.
