RE: Sexual Assault Prevalence Survey

Please seriously consider contributing $5000 funding to this survey for the following reasons:

1. This is a student welfare issue. Date rape is particularly common among college students because of the ease and frequency of sex, the peer pressure to be sexually active, and the high level of alcohol use. Sexual violence is a dehumanizing experience for both men and women, but can cause long term problems for the victim, such as isolation, shame, depression, inability to have trusting, loving relations.

2. Date rape appears to be very prevalent at the University of Montana, but data and facts are largely unavailable. Last year, 88 UM students received care at Women’s Place for sexual assault. There may be two or three times that many students who were assaulted who did not seek services.

3. University administrators agree that this appears to be an important issue, but in times of scarce funding, data is needed to justify allocating these limited funds to sexual assault prevention and treatment programs.

4. Similarly, university administrators have stated their willingness to commit funds to this survey on sexual assault if students demonstrate that this is an important issue for them.

5. Specifically, university administrators have verbally committed a total of approximately $6000 to this study, all contingent upon ASUM’s commitment of $5000. If ASUM funded significantly less than $5000, I believe that university administrators would reconsider their initial commitment, and therefore, this survey would not take place.

I hope that students consider sexual assault an important student issue and will support this study with a $5000 commitment. I doubt that the smaller contribution of $1500 would itself be adequate, and I doubt that the additional necessary funds could be found in time for the survey to take place this year.

Thank you very much.
The Annual ASUM Office Manager's Day Act

WHEREAS. Instead of a secretary, the Associated Students of The University of Montana has an office Manager

ASUM recognizes that our office manager is an essential part of the running of ASUM, and supports the creation of an annual Office Manager's Day to be held annually in conjunction with Secretary's Day.
