General Policy

Smoking is prohibited in all buildings owned, operated, or leased by the University of Montana except in designated smoking areas. All building entrances shall have a sign stating "No Smoking Except in Designated Areas". Once initial designation of smoking areas has taken place, disputes regarding the application of this policy shall be referred to the Director of Human Resources Services or Dean of Students as appropriate.

Residence Halls and Family Housing

Smoking is prohibited in all areas except students private living space. An air purification device(s) is required in each smoking residence hall room with an appropriate fee/deposit charged.

Private Offices

Smoking is permitted in private offices (one occupant) that are fully enclosed. The smoke generated must be confined to the private office space by closing doors, opening windows, or providing air purification equipment. Where necessary, attempts will be made to relocate smokers to spaces where the containment criteria can be met. Smoking is not permitted in private offices during the transaction of official business with non-smokers.

Open Offices/Work Areas

Smoking is prohibited except in designated smoking areas. Designated smoking areas must be enclosed so as to limit the smoke generated to the designated area and should be provided with adequate ventilation or air purification equipment. The supervisors within a building shall be responsible for designating a single common smoking area within their building. Where the supervisors can't agree or employees file a complaint, the Ad Hoc Committee on Campus Smoking Policy shall determine the location of the designated smoking area.
