This Syllabus is brought to you for free and open access by the Course Syllabi at ScholarWorks at University of Montana. It has been accepted for inclusion in Syllabi by an authorized administrator of ScholarWorks at University of Montana. For more information, please contact scholarworks@mso.umt.edu.
Required Material
MAR 320 Art of Photoshop requires you to have access to a computer (Mac or PC) with Photoshop (CS - CC versions will be fine). If you need to purchase PS, you can visit [www.adobe.com](http://www.adobe.com) to purchase a Creative Cloud student membership. Please let me know if you have questions. All other material you will need is provided on The Art of Photoshop Moodle course.

UM Email - You MUST check your UM email account regularly. IMPORTANT announcements, responses to Moodle messages, and other communication will be found in the UM email account.

Skype - you will also be required to download Skype and create a Skype name, as this will be my main "Office" for this course. Please email me if you'd like to meet via Skype and request to add my Skype name amberstudio.net to your contacts.

OPTIONAL - a graphic tablet such as a Wacom: [http://www.wacom.com/](http://www.wacom.com/)

Course Overview
MAR 395 Art of Photoshop is an online course that provides an understanding of the use of Photoshop as an artistic tool. Exercises and projects will explore areas of customizing & combining tools, depth & perspective, and graphic elements (including text & paths), and will be based on effective production techniques, project planning, and the artistic principles of color theory, content, and layering. Interaction will consist of a student project gallery, critique and feedback areas, downloadable videos specific to the curriculum, and video conferencing (when available).

Outcomes
The challenge of the media arts student is to integrate the capabilities of digital computation with aesthetic expression. The technological landscape in digital art continues to change dramatically so it is critical that the student artist stay in tune. With this in mind, this course has been designed to help each student gain a cohesive understanding of the multiple facets of digital image design in general, and Photoshop in particular.
At the conclusion of this course students should be able to:
• Understand the use of Photoshop as an artistic tool
• Understand the use principles of design & color theory
• Understand the choice of artistic style
• Understand and integrate the basic work areas of Photoshop
• Create a variety of project templates
• Apply the techniques of creating customized brushes & stencils, creating depth & perspective, and graphic elements (text & paths).
• Think creatively within Photoshop
• Begin to evaluate their artwork based on the awareness of “ownership”

Exercises
IMPORTANT!!! >>>> Due Dates - Refer to Course Calendar & Due Dates Section below (or in Main Moodle Menu)

There will be four exercises during the session:
Exercise #1: Custom Brushes
- explains the brush tool & demonstrates creating custom PS brushes
Exercise #2: Depth & Perspective
- uses techniques to create PS layers with depth & perspective
Exercise #3: Stencils
- creates digital stencils by combining tools in PS
Exercise #4: Paths
- creates a graphic elements using the path tool in PS
Exercise #5: Text
- creates an abstract design with use of text as graphic elements

The purpose of each exercise will be to develop an understanding of a particular technique and will be used to lay the foundation for the ensuing project. Students will use the identical source material so as to have a basis for comparison. You will have one week to complete each exercise and once completed, will upload it to the instructor via the Upload Area in each Exercise FOLDER. Step by step instructions, source material, and tutorial videos for each exercise are found in the Exercises Info area. Please begin by reading the Exercises Overview file.

Projects
IMPORTANT!!! >>>> Due Dates - Refer to Course Calendar & Due Dates Section below (or in Main Moodle Menu)

There will be four projects during the semester:
Project #1: Custom Brushes / Depth & Perspective
Project #2: Stencils
This project will have 3 parts which will include creating stencils based on the 3 artistic styles (realism, representational abstract, abstract)
Project #3: Paths
Project #4: Text
This project will have 2 parts (text as a graphic element & text as a communication element).
Final Project
Concept must demonstrate an understanding of the principle of “ownership” (explained in the principles video section) & must be inspired/influenced by research in an area of choice (details in project descriptions), but can be the style & design of your choosing.

The first four projects will be based on the preceding exercise and the final project will be a composition incorporating all of the techniques and principles covered during the session. Students will find their own conceptual entry point and will be responsible for acquiring the source material. You will have two weeks for most projects (refer to course calendar) and once completed, will upload to the instructor via the Upload Area in each Project area. After review by the instructor, the project will then be placed in the Project Gallery room in THE GALLERY for feedback from the class. Please begin by reading the Project description files in the appropriate project FOLDERS in the Project area of the main menu and watching the project videos in the Videos area of each project FOLDER.

Project Revisions
After you turn your projects (1-4) in & you receive your feedback & grade, you have an option to re-submit your project for the possibility of a higher grade (your grade can’t drop from this, if anything, it will stay the same).

*Upload to the Project Revisions area.

Digital Sketchbook
IMPORTANT!!! >>>> Due Dates - Refer to Course Calendar & Due Dates Section below (or in Main Moodle Menu)

Each student will be responsible for completing one “digital sketchbook” page per week. Please see Digital Sketchbook area in the BB main menu for details. Your sketchbook pages will be uploaded to the Sketch Book Gallery Room in THE GALLERY.

The Gallery
Upon completion and uploading, a JPEG file of each of the projects will be posted in THE
GALLERY in the Project Gallery Room for critique / feedback. See the Peer Review section below for details on the peer review procedure. An announcement will be sent when projects are in the Gallery and ready to be critiqued and will include instructions for the Peer Review procedures (ie who you will critique ect...).

Peer Review
Every student will be responsible for interacting with the class by participating in the Peer Review discussion board area. Each project will have its own forum where students will post feedback and critiques (projects will be posted in alphabetical order). An announcement will be sent when projects are ready to be critiqued and will include instructions for the Peer Review procedures (ie who you will critique ect...). Please take advantage of the aesthetic observations of your colleagues and look through all of the forum posts. You may also post more critiques than those required.

Art Experiences
IMPORTANT!!! >>>> Due Dates - Refer to Course Calendar & Due Dates Section below (or in Main Moodle Menu)

You will be required to go out into the art world (ie galleries, performances, etc) in your art community of choice (at least one needs to be from your current home town, the other can be while visiting somewhere). In a forum, tell your classmates about your experience through photos & written descriptions, and when possible, web links. Later classmates will ask questions about your Art Experience & you will answer them. To see more details about Art Experience requirements, please to the the Art Experience area in the main Moodle menu.

Course Grade Assessment

*When I grade, I look @ the project to see if it is complete/"finished". For Projects (1-Final), the grade comes from how "finished" your project is in each of the following areas: concept, production, actualization (lost points in any of the areas means you project wasn't "finished" to it's potential, it does not mean it is "wrong"). Please feel free to contact me at amber.bushnell@umontana.edu if you have questions or would like more detailed feedback from me (I will respond with a "video note" talking about how you can further "finish" your project. Remember you have a chance to revise Projects 1-4 after you receive a grade from me. If you choose to revise, your grade will either improve or stay the same (you will not lose points).

See the following criteria below.

Exercises: 5
5 points each > On time: 1
> Instructions: 4
Total: 25
Projects: 4 + Final
10 points each (x4) > On time: 1
  > Concept: 3
  > Production (apply the principles & techniques of the preceding exercises, followed Project directions, elements are not messy): 3
  > Actualization (Design & Color Theory-composition, color, etc...): 3

15 points (Final) > On time: 2
  > Concept: 6
  > Production (apply the principles & techniques of the preceding exercise): 6
  > Actualization (Design & Color Theory-composition, color, etc...): 6
Total: 60

Sketchbook: 10
1 each (x10) > On time: .5
  > Instructions: .5
Total: 10

Peer Review: 4
1.25 each (x4) > Demonstrate insight, constructive criticism, on time
Total: 5

Art Experience: 5
2 Art Experiences - 2.5 points each
1.5 - writing & posting photos about experience in Art Experience forum
1 - asking questions about 2 classmates experiences & answering questions classmates ask
Total: 5

GRAND Total: 100

Points will translate into the following letter grade:

A 95-100
A- 90-94
B+ 86-89
B 83-85
B- 80-82
C+ 76-79
C 73-75
C- 70-72
D 60-69
F 0-59

**Academic Misconduct and the Student Conduct Code**

All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or disciplinary sanction by the University. All students need to be familiar with the Student Conduct Code. The Code is available online at [http://life.umt.edu/vpsa/student_conduct.php](http://life.umt.edu/vpsa/student_conduct.php)
