FOR IMMEDIATE RELEASE

Missoula---Continuing an upward climb, registration at Montana State University this fall totaled 3,757 students, a new all-time enrollment record. The increase was nearly 4 percent over last year's 3,615 total, according to Registrar Lee Smith.

Following a post-war drop, enrollments at MSU have been making a steady recovery and last year exceeded the previous all-time total established in the G. I. flood year of 1948. The trend toward higher registrations has been particularly apparent in the last few years, Smith noted. The Campus this fall has 1131 more students than checked in for the fall quarter of 1954, an increase of 39 percent. The largest portion of the increase has occurred in the past three years and the school has noted a gain of 881 students over 1957 registration.

Men students still continue to outnumber the coeds at MSU. This fall, 2,641 men registered as compared with 1116 women.
