FOR RELEASE THURSDAY, DECEMBER 22

The National Science Foundation has awarded Montana State University grants totaling $153,000 for summer institutes for high school science teachers, MSU President H. K. Newburn announced.

The grants are for $78,000 for an institute in biology, under the direction of Dr. James W. Gebhart, associate professor of education; $60,000 for one in mathematics, under the direction of Dr. William M. Myers, associate professor of mathematics, and one in radiation biology, under the direction of Dr. Gordon B. Castle, director, MSU Biological Station.

Detailed information for high school teachers interested in the 1961 summer institutes will be available soon from the respective directors of the institutes, Dr. Newburn said.
