FOR IMMEDIATE RELEASE

Dr. John Andrew Wilson, professor of geology at the University of Texas and Distinguished Lecturer for the American Association of Petroleum Geologists, will speak at Montana State University Wednesday, March 29, at 8 p.m. in room 107 of Science Hall.

Dr. Wilson's lecture on "The Miocene Mirage," a study in paleoecology, is open to the public without charge, according to Dr. Fred S. Honkala, chairman of the MSU Geology Department.

In 1958 Dr. Wilson received a travel grant for study in Europe from the American Philosophical Society, and in 1960 he was an American Geological Institute Visiting Lecturer. He is chairman of the Committee for the Revision of Time and Time Stratigraphic Position of the Code of the American Commission of Stratigraphic Nomenclature.

The lecturer holds a Ph. D. degree from the University of Michigan. He taught at the University of Idaho School of Mines before joining the University of Texas faculty.

Dr. Wilson's lecture at the University is sponsored by the MSU Geology Department and the American Association of Petroleum Geologists. During his current tour, under AAPG auspices, he will lecture before 40 geological societies and university groups in the United States and Canada.
