FOR IMMEDIATE RELEASE

The Montana State University Speech and Hearing Clinic will sponsor a six-week summer camp for children with speech or hearing handicaps June 17 through July 27, according to Dr. Richard M. Boehmler, camp director.

Each child accepted will receive three hours a day of direct therapy, he said. In addition, the program includes supervised practice periods, arts and crafts, group recreation and swimming.

One full-time staff member for every two children will make possible a program tailored to the child's individual needs, Dr. Boehmler pointed out.

Enrollment must be limited, so application for admission to the camp should be made early, according to the director.

Program details and application forms may be obtained by writing to Dr. Richard M. Boehmler, Speech and Hearing Clinic, Montana State University, Missoula.
