BIOL 530, Sec 01, 1 credit, Advanced Topics in Physiology - Energetics and Nutritional Ecology

BIOL 530 - Advanced Topics in Physiology.

Semester Topic - Animal Energetics and Nutritional Ecology

Day and Time to be decided at first meeting on Monday Jan 27, 4pm
room HS108.

This course will be held in a seminar format and will meet once per week. Previous knowledge of physiological ecology or energetics is not required as the needed basics will be introduced in initial lectures. We will use the primary scientific literature to explore current issues in animal energy and nutrient utilization.
