FOR IMMEDIATE RELEASE

Dr. E. J. Drouillard, Missoula physician, will speak on "X-ray" Tuesday at 1 p.m. at the Montana State University Law School, Dean Robert E. Sullivan announced.

Dr. Drouillard's talk will be the third in a series of nine lectures on "Facts of Medicine for Lawyers" scheduled on campus in February, March and April, the dean said. The talks are on Tuesdays at 1 p.m. in room 204 of the Law building and are open to members of the bar.

The series is sponsored by the Western Montana Medical Society, the Western Montana Bar Association and the MSU Law School. The program was begun last year in keeping with the national trend toward closer cooperation between the medical and legal professions, according to Dean Sullivan. Such cooperation is essential for the protection of the legal rights of doctors and their patients, lawyers and their clients, and the public, he said.

Dr. Drouillard will be the speaker again March 5, when his topic will be "How May X-ray Be Used in Court?" Other lectures scheduled are "Back Injuries - Orthopedic," Dr. R. P. Yost, March 12; "Insanity and Divorce," Dr. H. Ryle Lewis, March 16; "Head Injuries and Pain," Dr. E. K. George, April 2; "Trauma," Dr. J. O. Kildow, April 9, and "Post-mortem Examination," Dr. E. G. Buchanan, April 16.

Dr. C. P. Brooke, the first speaker in the 1963 series, lectured Feb. 12 on "The Physical Examination" and Feb. 19 on "Medical Terms Commonly Used by Lawyers."
