FOR IMMEDIATE RELEASE

Dr. Clyde E. Noble, professor of psychology at Montana State University, has been awarded a one-year grant of $4,200 to conduct research by the National Institute of Mental Health, MSU officials announced.

Dr. Noble’s general objectives are to determine the mathematical characteristics of perceptual-motor learning and performance of subjects of different age, sex, training and ability.

In his psychological reaction-time experiments for the project, he will use 600 volunteer subjects, ranging in age from 8 to 80, and including 20 males and 20 females in each of 15 age categories.
