FOR IMMEDIATE RELEASE

Thirty-seven high-school journalists will publish an All-State edition of the State University student newspaper during the Interscholastic Meet, May 24-25.

Montana State University will extend its athletic scholarship program to include an item of $75 per year in addition to board, room, and fees for student-athletes who register at the University with the beginning of the 1963 fall quarter, it was announced today by President H. K. Newburn.

The action moves the MSU athletic scholarship program forward by a full year. At the recent meeting of the Board of Regents, President Newburn informed members that the University hoped to find funds outside the general University contribution in order to provide an additional $75 for books and incidentals in athletic grants-in-aid beginning with the fall of 1964.

Sufficient funds have been found to put the program into operation this fall, he said.

According to Dr. Wally Schwank, director of Health, Physical Education and Athletics, the increase now puts MSU on an equal basis with other schools in the Big Sky Conference insofar as aid to athletes is concerned.
