readings, lectures and videos if they wish to maximize their best potential for learning and test grades in this course. Students should  
assume that where lecture material and information from the text cross, such information will most likely show up on exams. Lectures will be presented on the premise that students have taken the initiative to read the assigned material and are bringing to the

Academic Honesty: Under no circumstances should students represent another person's work or ideas as their own. To do this is to  
plagiarize and it is an intolerable offense in the academic community. Students who plagiarize will fail the assignment, and as a  
result may fail the course. Students should also be advised that they should not submit the same paper for more than one course.
