Melvin S. Morris elected a American Association for the Advancement of Science Fellow

University of Montana--Missoula. Office of University Relations
FOR IMMEDIATE RELEASE

Melvin S. Morris, professor of forestry at Montana State University, has been elected a Fellow of the American Association for the Advancement of Science, Dean Arnold W. Bolle announced.

Fellows are elected on the basis of original research or other significant contribution to the advancement of science, the dean said.

Morris, a member of the MSU faculty since 1936, has been a regional and national officer of the American Society of Range Management, president of the Montana Academy of Science, chairman of the Northern Rocky Mountain Section of the Society of American Foresters, collaborator with the U. S. Fish and Wildlife Service and the U. S. Forest Service, and assistant unit leader of the Montana Cooperative Wildlife Research Unit.

He has published articles in professional journals and presented papers before professional societies.

The MSU forester received a B. S. in forestry and an M. S. in botany from Colorado A & M, where he won three letters in swimming, and he has done advanced work at the University of Chicago.
