FOR RELEASE SUNDAY, JANUARY 10

Dr. Gloria C. Hewitt, assistant professor of mathematics at Montana State University, has been awarded a National Science Foundation Science Faculty Fellowship for the 1965-66 academic year, Dr. William M. Myers, department chairman, announced.

Dr. Hewitt will use the award to pursue postdoctoral study in categorical algebras at the University of Oregon.

The fellowship provides a stipend equal to the recipient's salary for the previous academic year, Dr. Myers said. He noted that this is the first fellowship of its kind ever awarded in Montana.

Dr. Hewitt, a member of the MSU faculty since 1961, holds a bachelor's degree from Fisk University and a Ph. D. from the University of Washington. In April 1964 she was named a lecturer in an NSF program administered by the Mathematical Association of America.
