FOR IMMEDIATE RELEASE

Saturday, April 3, is the final date for Montana high school seniors and juniors to register for the April test session of the American College Testing Program, according to Leo Smith, Missoula, state coordinator for ACT.

Students may obtain ACT registration forms and instructions from their high school offices, Smith said. He stressed that they must register in advance to take the tests.

The ACT battery will be given Saturday, April 24 in 16 cities and towns in Montana. In _____________, the battery will be given at ____________________________ (your town) (test center) locations listed at end).

Montana colleges and universities require or recommend that their prospective students take the ACT battery, Smith pointed out.

ACT sends a record based on results of the battery to the colleges of the student's choice, Smith said. These records are used in placement, admissions, academic and vocational counseling, selection of scholarship and loan recipients, and in planning other student programs. In addition, ACT sends "feedback" reports to the student and his high school counselor.

The ACT battery consists of a student information section plus one test in each of four subject areas: English, mathematics, social studies and natural science.

Juniors may register for the April 24 test date or for the later June or August national testing sessions. They need not repeat the tests in their senior year as adjustments are made in scoring the tests for juniors.

(more)
Smith urges students planning to enter college in the fall of 1965 to register for the April 24 test.

NOTE TO EDITORS: Centers where the ACT battery will be given April 24. We do not have the hour the tests will start.

Billings: Rocky Mountain College, room 420, Administration building
