FOR IMMEDIATE RELEASE

Donald L. Lodmell, of Polson, a graduate student in the University of Montana microbiology department, has been awarded a U.S. Public Health Service predoctoral fellowship of $3,100 by the National Institute of General Medical Sciences of the National Institutes of Health, according to his department chairman, Dr. M. J. Nakamura.

The fellowship sponsors are Dr. C. L. Larson, professor of microbiology and director of the Stella Duncan Memorial Institute at the U of M, and Dr. J. F. Bell, medical director at the Rocky Mountain Laboratory in Hamilton.

Lodmell will finish the requirements of his Ph.D. degree with his work at the Rocky Mountain Laboratory while he is studying the pathogenesis of abortive rabies.

Recently, Lodmell returned from the Communicable Disease Center in Atlanta, Georgia, where he attended an advanced training course in diagnostic techniques for the detection of rabies.
