This Syllabus is brought to you for free and open access by the Course Syllabi at ScholarWorks at University of Montana. It has been accepted for inclusion in Syllabi by an authorized administrator of ScholarWorks at University of Montana. For more information, please contact scholarworks@mso.umt.edu.
Psychology 120 (Section 1)—Research Methods I

Spring 2016

Course Location and Time
Monday, Wednesday, Friday 10:10am – 11:00am
Chem 123

Instructor Information
Instructor: Brook Clark
Office: Skaggs Bldg. 237
Email: brook.clark@umontana.edu (the best way to contact me)
Office hours: M/W from 8:10am - 10:00am, or by appointment

Required Text

Course Objectives
The primary purpose of this course is to provide students with an overview of the research methods used in psychological research. Specific topics to be covered include the foundations of research, sampling procedures, measurement, research design, and analysis. Students are expected to think critically and to actively participate in class discussions and activities. The format of the course will rely on both lecture and discussion.

In order to accomplish this objective, it is expected that students will exhibit professional behavior throughout the course. This includes, for example, student attendance, preparedness, and active participation and involvement in class.

COURSE GUIDELINES AND POLICIES

Academic Misconduct
You are expected to adhere to the university’s student conduct code with regard to academic integrity. Academic misconduct in this course will result in an academic penalty commensurate with the offense as well as possible disciplinary action by the university. Please familiarize yourself with the Student Conduct Code.

Disability Modifications
The University of Montana assures equal access to instruction through collaboration between students with disabilities, instructors, and Disability Services for Students. If you think you have a disability adversely affecting your academic performance, and you have not already registered with Disability Services, please contact Disability Services in Lommasson Center 154 or call 406.243.2243. I will work
with you and Disability Services to provide an appropriate modification.

**Courtesy**

Courtesy is expected. Come to class on time and stay for the entire session. If you have an emergency and must come in late or leave early, please do so quietly. Please be quiet and polite during class. If you are not enthralled, that's OK; if you read the paper, talk to your neighbor, or do anything else that is distracting to me or to others, that is NOT OK. It is my responsibility to create a good learning environment, and I will ask individuals who are being distracting to leave. A note about phones: please practice cell phone courtesy. Turn your phone to silent during class.

**Attendance/Announcements**

Attendance is not mandatory and role will not be taken. However, your course grade is determined by exams (which will include material from lecture as well as the text), and in-class assignments. Course notes are not posted and I do not give my notes out– if you miss class, you are responsible for the material covered. Further, students are responsible for any announcements made in class. These may include changes in policy, due dates, assignment requirements, etc.

**Course Withdrawal**

March 28th is the last day to drop classes with an add/drop slip (both the instructor’s and the advisor’s signatures are required). After that date, no petitions to drop the course will be signed and no Incompletes will be given except in documentable emergency situations.

**HOW YOUR GRADE WILL BE DETERMINED**

**Exams**

You will have 3 exams throughout the course. Each exam will contain a total of 50 multiple-choice questions (2 pts. per question = 100 pts. each exam). The exams will test your knowledge of topics covered in lecture as well as in the text. A cumulative final exam will be an option during final exam week. Students choosing to take the cumulative final may drop their lowest test score. There are no make-up exams, except in the case of a documented emergency (medical, family death, etc.), in which case you will need to notify me prior to the missed exam.

**In-Class Assignments**

In-class assignments will be given throughout the semester. These assignments will vary depending on the topic discussed in class. For example, students may be asked to reflect upon a particular issue in research and turn in a brief written response. Assignments are designed to increase students’ ability to apply concepts from class. There are no make-ups for in-class assignments (except in the case of a documentable emergency).

**Grading**

Your final course grade will be based upon a total of 350 possible points that will be distributed as follows:

- 3 Highest Exam Scores (100 points each): 300 points
- In-class Assignments (5-10 points each): 50 points
Course grading will be based on the following point scale:

- A: 90% or higher
- B+: 86-89%
- B: 83-85%
- B-: 80-82%
- C+: 76-79%
- C: 73-75%
- C-: 70-72%
- D+: 66-69%
- D: 63-65%
- D-: 60-62%
- F: 59% and below

**Be warned now:** I will round decimal places equal to or greater than ".5" up (so a total of 89.5% will be an "A"); however, beyond this, the grade you receive will be whatever the numbers say, NO EXCEPTIONS (so an 89.4% will be a "B+"). I am aware that this can create some unfortunate circumstances for those students who are on the “bubble”. However, the problem with changing the criterion for a given student is that, once I change that criterion, inevitably another student is "right on the bubble," so ultimately someone just barely misses it. I don’t want to be overly subjective in my judgment of who should get to surpass the objective criteria; thus, no one will.

**NOTE:** If you are a psychology major, you must get a C, not a C- for the grade to count.

---
