Class Meeting Times and Final

Section: 01 (CRN 33341)
Day, Time, and Location
Lecture:  MW, 9:10 AM – 10:00 AM, HB04
Lab:      T, 9:40 AM – 11:00 AM, HB04
Final Exam Date, Time, and Location
W, 05/11/16, 10:10am – 12:10pm, HB04

Course Description

Emphasis on the use of the Windows 7 operating system (OS) command line interface, and includes the creation and execution of script files in Windows environment. Focus is on OS installation, system configuration, file management, networking resources, and disaster recovery practices in the Microsoft environment, using both the command interpreter and graphical user interface.

Course Overview

This course examines the use and power of the Microsoft Windows operating system (OS) command line interface (CLI), including a comparison of command line commands and with their Windows graphical user interface (GUI). When using the Windows GUI, we use the operating system much like we drive a high-performance sports car: we use our mouse to travel around the Windows environment, executing applications at the speed of a mouse-click; we do not care about what the system is actually doing “under the hood.” As with the sports car, we occasionally we need to “tune up” or repair our OS. With Windows, we can use the convenience of the GUI to execute OS utilities to configure our operating system. However, as with a sports car, we sometimes need a specialized set of tools to perform specific operations, tools that are not available in the GUI toolbox.

In Windows, this specialized set of tools is accessed via the CLI. With the CLI we can perform highly-specific operations not available via the GUI. The CLI permits us to fine-tune (modify) OS commands, which allows us to tweak very specific areas of the operating system. In this course we are going to open up this specialized Windows toolbox and learn how to use these tools “under the hood” of the operating system. You will see and experience some of the power available through the command line interface, and also develop some insight into what actually occurs when you point-and-click.

Course Objectives

Upon completion of this course, the student will be able to:

- Identify the purpose, function, and structure of an operating system at is relates to hardware, software, and user.
- Execute OS operations and tasks from the command line, such as file management, network resource management, system configuration, system maintenance, disaster recovery, and OS installation.
- Create and execute OS operations and tasks using batch files and script files.
• Use critical thinking to develop and implement troubleshooting techniques.

**Required Materials**

• The course text is available in the course shell as individual chapter PDF files; there is no course text in the UM Bookstore.
• 1 each external hard disk drive, USB 2.0 or better.
• 1 each 16GB electronic storage device, USB 2.0 or better
• Other course materials as provided or required by the instructor.

**Evaluation and Grading Criteria**

<table>
<thead>
<tr>
<th>Assessment</th>
<th>Grading Scale</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assignments, quizzes, projects, etc.</td>
<td>35.0%</td>
</tr>
<tr>
<td>Laboratories</td>
<td>30.0%</td>
</tr>
<tr>
<td>Exams</td>
<td>35.0%</td>
</tr>
<tr>
<td>Attendance Bonus</td>
<td>2.0%</td>
</tr>
</tbody>
</table>

**Grading Scale**

- 100% - 90% .......... A
- 90% - 80% .......... B
- 80% - 70% .......... C
- 70% - 60% .......... D
- < 60% ................ F

---

**Course Policies**

**Online Component**

Various components of the course will be delivered via UMOnline (http://umonline.umt.edu) using the Moodle Course Management Software. It is the responsibility of the student to become familiar with and work in Moodle. Moodle training is also available through UMOnline.

**Attendance**

• Regular classroom attendance is expected and attendance is taken.
• Students more than 10 minutes late for class will not receive credit for attendance.

**Attendance Bonus**

The attendance bonus is based on course attendance and is added to the student’s semester percentage. This policy provides students the possibility of advancing their semester grade to the next grade level by being diligent in their attendance.

The bonus is based on the percentage of contact hours attended as follows:

<table>
<thead>
<tr>
<th>Attendance %</th>
<th>Bonus %</th>
</tr>
</thead>
<tbody>
<tr>
<td>95% - 100%</td>
<td>2.0%</td>
</tr>
<tr>
<td>90% - 95%</td>
<td>1.5%</td>
</tr>
<tr>
<td>85% - 90%</td>
<td>1.0%</td>
</tr>
<tr>
<td>80% - 85%</td>
<td>0.5%</td>
</tr>
</tbody>
</table>

**Assignments and Exams**

• All assigned work is due at the assigned time on the assigned date.
• All exams are to be taken at the assigned time on the assigned date.
• **All late or missed work receives a score of 0.** Late work is accepted only in extraordinary circumstances, and is accepted and graded at the instructor’s discretion.

**Electronic Communication Devices**

• All electronic communication devices must be secured, muted, or tuned off prior to the start of class.
• Any use of an electronic communication device during an exam is considered cheating and will be handled at the instructor’s discretion (refer to Student Conduct).
• Audio and/or video recording of class sessions is not permitted without prior approval of the instructor (refer to Students with Disabilities).
Email

This course uses your student email account for all course email communication. Therefore, you are required to monitor and use your student email account for course email communication.

Student Conduct

- All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or disciplinary sanction by the University.
- Student conduct is governed by the Student Conduct Code. All students need to be familiar with the Student Conduct Code. It is available for review or can be downloaded at http://www.umt.edu/vpsa/policies/student_conduct.php.

Students with Disabilities

- Eligible students with disabilities will receive appropriate accommodations in this course when requested in a timely manner. Please be prepared to provide me a copy of your Letter of Verification supplied by your Disability Services for Students (DSS) Coordinator for my records. Refer to http://life.umt.edu/dss or call 406-243-2243 (voice/text) for information regarding your rights.
- When requesting accommodations, please contact me after class or in my office to discuss your needs. This is done in order to maintain your privacy and minimize class disruptions.
- For students requesting examination accommodations, you must supply me the completed Learning Center (LC) scheduling form for my signature at least 3 days prior to the scheduled test date (the LC requires the signed form at least two days prior to testing). LC contact information is available at http://mc.umt.edu/student_resources/learning_center/ or call 406-243-7826.

Policies for Dropping and Adding Courses, Changing Sections, Grading, and Credit Status

- The University Policy for dropping courses or requesting grading/credit status changes can be found in the academic catalog or on the web at http://www.umt.edu/registrar/students/dropadd.php. All students should be familiar with this policy.
- If you are having difficulty with the course for any reason and decide not to continue, please complete a drop or withdrawal form. A properly completed and approved drop or withdrawal form will prevent you from receiving a failing grade on your college transcript.
- Please note: if you are receiving financial aid, dropping or withdrawing from a course may affect your financial aid status.

Changes to Syllabus

NOTE: The instructor reserves the right to modify the syllabus and assignments as needed based on faculty, student, and/or other circumstances. If changes are made to the syllabus, amended copies will be dated and made available to the class.

Important Semester Dates

Thursday-Friday, January 21-22 .................. New Student Orientation
Monday, January 25 .............................. Spring Semester Classes Begin
Monday, February 15 .............................. Presidents Day – No Classes, Offices Closed
Monday-Friday, April 4-8 ......................... Spring Break
Friday, May 6 .............................. Last Day of Regular Classes
Monday-Friday, May 9-13 ....................... Final Exams
Saturday, May 14 .............................. Commencement

REVISION: 01/25/2016
ITS 165 Course Outline
(tentative)

Unit 1:  Introducing Command Line Commands and Batch File Scripting

Unit 1-1.  Overview of Operating Systems
Unit 1-2.  Introduction to Batch Files
Unit 1-3.  Working with Command Syntax
Unit 1-4.  Working with Formatting and Storage Media
Unit 1-5.  Working with Files and Directories

Unit 2:  More Command Line Commands and Batch File Scripting

Unit 2-1.  Working with Internal Commands COPY and TYPE
Unit 2-2.  Using DEL, REN, MOVE, and RD /S
Unit 2-3.  Using ATTRIB, SUBST, XCOPY, DOSKEY, and Text Editors
Unit 2-4.  Organizing and Managing Your Hard Disk
Unit 2-5.  Using Pipes, Filters, and Redirection
ITS 165 Course Schedule
(tentative)

Week 1: Syllabus
  Unit 1-1: Overview of Operating Systems

Week 2: Unit 1-2: Introduction to Batch Files

Week 3: Unit 1-3: Working with Command Syntax

Week 4: Presidents Day
  Unit 1-3: Working with Command Syntax
  Unit 1-4: Working with Formatting and Storage Media

Week 5: Unit 1-4: Working with Formatting and Storage Media

Week 6: Unit 1-5: Working with Files and Directories

Week 7: Unit 1-5: Working with Files and Directories

Week 8: Unit 2-1: Working with Internal Commands COPY and TYPE
  Exam 1

Week 9: Unit 2-1: Working with Internal Commands COPY and TYPE
  Unit 2-2: Using DEL, REN, MOVE, and RD /S

Week 10: Unit 2-2: Using DEL, REN, MOVE, and RD /S

Week 11: Spring Break

Week 12: Unit 2-3: Using ATTRIB, SUBST, XCOPY, DOSKEY, and Text Editors

Week 13: Unit 2-4: Organizing and Managing Your Hard Disk

Week 14: Unit 2-4: Organizing and Managing Your Hard Disk
  Unit 2-5: Using Pipes, Filters, and Redirection

Week 15: Unit 2-5: Using Pipes, Filters, and Redirection

Week 16: Final Exam
